PRODUCTION SHARING AGREEMENT

FOR

PETROLEUM EXPLORATION DEVELOPMENT AND PRODUCTION

IN THE

REPUBLIC OF UGANDA

BY AND BETWEEN

THE GOVERNMENT OF THE REPUBLIC OF UGANDA

AND

TULLOW UGANDA LIMITED

In respect of Exploration Area 1

February, 2012

THIS AGREEMENT is made and entered into this 3rd day of February, 2012 by and between the Government of the Republic of Uganda, acting through the Ministry of Energy and Mineral Development, of P.O Box 7270 Kampala, Uganda (hereinafter referred to as “Government”) and Tullow Uganda Limited, a company incorporated in the Isle of Man and having its registered office at Falcon Cliff, Palace Road, Douglas, Isle of Man IM2 4LB and registered under Chapter 110 of the Laws of Uganda (hereinafter referred to as the “Licensee”)

WHEREAS. Petroleum in or under any land or water in Uganda is the property of the Republic of Uganda;

WHEREAS. the Petroleum (Exploration and Production) Act Chapter 150 of the Laws of Uganda 2000 makes provision with respect to exploring for and producing Petroleum and authorises the Minister responsible for petroleum exploration and production to grant Exploration and Production Licences to any person or entity, subject to certain limitations and conditions;

WHEREAS. Section 3 of the Act authorises the Government to enter into an agreement, not inconsistent with the Act, with any person or entity in respect of, inter alia, the terms and conditions of the grant of a Licence under the Act;

WHEREAS. Licensee has applied for an Exploration Licence over the area described in, and shown on the map in Annex A hereof and the Minister, in accordance with Section 9 of the Act, intends to grant the said Licence; and

WHEREAS. Licensee intends, on terms and conditions set out under this Agreement and has represented that he/she has or can obtain resources, to undertake Petroleum Operations in the area aforesaid and has for that purpose the necessary financial capacity, technical competence and professional skill to carry out such Operations;

NOW, THEREFORE, the parties hereto agree as follows:
ARTICLE 1

Definition

1.1 In this Agreement, unless the context otherwise requires:

1.1.1 “Act” means the Petroleum (Exploration and Production) Act Chapter 150 of the Laws of Uganda as amended and in effect from time to time.

1.1.2 “Advisory Committee” means the Committee constituted pursuant to Article 5.

1.1.3 “Affiliated Company” means any entity directly or indirectly effectively controlling or effectively controlled by, or under direct or indirect effective common control with a specified entity. For the purposes of this definition “Control”, when used with respect to any specified entity, means the power to direct, administer and dictate policies of such entity (it being understood and agreed that it is not necessary to own directly or indirectly fifty percent (50%) or more of such entity’s voting securities to have control over such entity, but ownership, direct or indirect, of fifty percent (50%) or more of such entity’s voting securities shall automatically indicate control), and the terms “controlling” and “controlled” have meanings corresponding to the foregoing.

1.1.4 “Agreement” means this instrument and the annexes attached hereto, including any extensions, renewals or amendments thereof agreed to in writing by the Parties.

1.1.5 “Albertine Graben” means that geological entity within the Republic of Uganda together with such contiguous area or areas of the Democratic Republic of Congo which together are known collectively as the Albertine Graben and recognised as such by the international geological profession.

1.1.6 “Allowable Contract Expenditures” means those expenditures as so described in Section 3 of Annex “C”.

1.1.7 “Appraisal Programme” means a programme carried out following one or more Discovery(ies) of Petroleum for the purpose of delineating the Petroleum Reservoirs(s) to which that discovery or these discoveries relate(s) in terms of thickness and lateral extent and estimating the quantity of recoverable Petroleum therein.

1.1.8 “Appraisal Well” means any Well drilled for purposes of an Appraisal Programme.

1.1.9 “Associated Gas” means Natural Gas which is produced in association with Crude Oil, and includes solution gas or gas cap gas, from a Petroleum Reservoir recovered as gas at the surface by separation or other primary field processes.
1.1.10 “Barrel” means a quantity consisting of forty-two (42) United States gallons, liquid measure, corrected to a temperature of sixty degrees (60°) Fahrenheit.

1.1.11 “Calendar Month” means any of the twelve (12) months of a Calendar Year.

1.1.12 “Calendar Quarter” means a period of three (3) consecutive Calendar Months commencing with first day of January, April, July or October of each Calendar Year.

1.1.13 “Calendar Year” means a period of twelve (12) Calendar Months according to the Gregorian Calendar, starting with January 1st and ending with December 31st.

1.1.14 “Commercial Production” means production of Crude Oil or Natural Gas or both and delivery of the same at the Delivery Point under a programme of regular production and sale.

1.1.15 “Contract Area” means (a) on the Effective Date, the area described in Annex A and shown on the map in Annex A; and (b) thereafter, the whole or any part of such area which, at any particular time, remains subject to an Exploration Licence granted to Licensee pursuant to Article 3 and/or subject to a Production Licence granted to Licensee pursuant to Article 7.

1.1.16 “Contract Expenses” means Exploration Expenditures, Development and Production Expenditures and Operating Expenses incurred by Licensee in Conducting Petroleum Operations hereunder determined in accordance with the Accounting and Financial Procedure described in Annex “C”.

1.1.17 “Contract Revenues” means the sum of all proceeds of sales of Petroleum and monetary equivalent to the value of other dispositions of Licensee's share of Petroleum produced and saved and not used in Petroleum Operations and any other proceeds from Petroleum Operations hereunder.

1.1.18 “Contractor” means any person, company or entity employed by or on behalf of the Licensee for the purpose of carrying out Petroleum Operations.

1.1.19 “Sub-contractor” means any person, company or entity employed by or on behalf of a Contractor for the purpose of carrying out Petroleum Operations.

1.1.20 “Crude Oil” means any hydrocarbon which at atmospheric pressure and a temperature of between 60° Fahrenheit and 113° Fahrenheit is in a liquid state at the wellhead or gas/oil separator or which is extracted from Natural Gas in a plant, including distillate and condensate; and has been produced from the Contract Area.
1.1.21 “Delivery Point” means the point at which Crude Oil passes through the intake valve of the pipeline or tanker or truck or rail wagon at the terminal or refinery in Uganda, or such other point which may be agreed to in writing by the Parties. In respect of Natural Gas, the Delivery Point shall be such point as may be agreed to in writing by the Parties.

1.1.22 “Development and Production Expenditures” means those expenditures as so categorised in the Accounting and Financial Procedure described in Annex “C”.

1.1.23 “Development Area” means an area constituted by a block that is, or by blocks that are, subjected to a Petroleum Production Licence.

1.1.24 “Development Operations” has the meaning ascribed to it in the Act but does not include operations beyond the Delivery Point.

1.1.25 “Development Plan” means a development plan referred to in Section 21 (3) of the Act.

1.1.26 “Discovery” means a discovery of Petroleum within the meaning of the Act.

1.1.27 “Discovery Bonus” means a single, non-recoverable lump sum payment by the Licensee to Government upon making a Discovery.

1.1.28 “Effective Date” means the date on which this Agreement is signed by all Parties hereto.

1.1.29 “Exploration Licence” means the petroleum exploration licence referred to in paragraph 3.1 and granted pursuant to Section 9 of the Act.

1.1.30 “Exploration Expenditures” are all necessary, appropriate and economical, direct and allocated indirect costs incurred in the search for petroleum and appraisal of Discoveries in the Contract Area as so categorised in the Accounting and Financial Procedures described in Annex C.

1.1.31 “Exploration Period” means the Exploration Period referred to in paragraph 3.1.

1.1.32 “Exploration Well” means a Well, other than an Appraisal Well, drilled in the course of Exploration Operations (as defined in the Act), conducted hereunder.

1.1.33 “Good Oilfield Practices” means all of those things that are generally accepted in the international petroleum industry as good, safe and efficient in the carrying out of Exploration or, as the case may be, Development Operations and that an experienced, reasonable and prudent operator, engaged in a similar activity under similar circumstances elsewhere, would use.
1.1.34 “Government” means the Government of the Republic of Uganda.

1.1.35 “Government Production Share” has the meaning ascribed to it in Article 13.

1.1.36 “Gross Negligence or Willful Misconduct” means any act or failure to act (whether sole, joint or concurrent) by the senior supervisory personnel of Licensee which was intended to cause, or which was in reckless disregard of or wanton indifference to, harmful consequences such person knew, or should have known, such act or failure would have on the safety or property of another person or entity.

1.1.38 “Joint Venture Agreement” means an agreement, not inconsistent herewith, between Licensee and the nominee of the Government to be negotiated and executed pursuant to paragraph 11.1.

1.1.39 “Joint Operations” means operations in or relating to a Development Area carried out under a Joint Venture Agreement.

1.1.40 “Joint Operating Agreement” means the contract between the Licensees, and its appendices and amendments, relating to the joint conduct of Petroleum Operations.

1.1.41 “Joint Venture Assets” has the meaning ascribed to it in paragraph 11.2a.

1.1.42 “Joint Venture Interest” has the meaning ascribed to it in paragraph 11.2b.

1.1.43 “Licence” means an Exploration Licence or a Production Licence, as the case may be.

1.1.44 “Licence Area” means an area over which an exploration or production licence has been issued.

1.1.45 “Licensee” means Tullow Uganda Limited and includes any other person, company or entity to whom the said company or any of their approved assignees or successors of all or part of their Participating Interests assign directly their Participating Interest in whole or in part in the Exploration Licence or Production Licence.

1.1.46 “Market Price” has the meaning ascribed to it in paragraph 15.1.1.
1.1.47 “Maximum Efficient Rate” means the maximum rate of production of Crude Oil from a Development Area, without excessive decline of production or excessive loss of reservoir pressure, in accordance with good oilfield practice and the provisions of paragraph 7.8.

1.1.48 “Natural Gas” means both Associated Gas and Non-Associated Gas and all its constituent elements produced from any Well in the Contract Area.

1.1.49 “Nominee” means a body corporate established by or under a law in force in the Republic of Uganda wholly owned or controlled by the Government pursuant to Article 11, designated for the purpose of holding Joint Venture Interest in the Joint Venture Assets attributable to a Development Area, and includes an approved assignee of such body corporate provided such assignee satisfies the requirements of Article 11.

1.1.50 “Non-Associated Gas” means Natural Gas other than Associated Gas.

1.1.51 “Operating Expenses” means those expenses as so categorised in the Accounting Procedure described in Annex “C”.

1.1.52 “Operator” means the Licensee charged by the Joint Operating Agreement with the responsibility of carrying out the Petroleum Operations under the terms of this Agreement.

1.1.53 “Operatorship” means responsibility assigned to person, company or entity to conduct Petroleum Operations on behalf of the Licensee in the Licence Area.

1.1.54 “Participating Interest” in relation to any Licence held by Licensee hereunder means an undivided and unencumbered interest in the rights and obligations under the Licence.

1.1.55 “Participation Share of Production” has the meaning ascribed to it in paragraph 11.3.

1.1.56 “Party”, or “Parties” means the signatories to this Agreement and any successors or assignees thereof, either individually or collectively, as the case may be.

1.1.57 “Petroleum” means “Crude Oil or Natural Gas”.

1.1.59 “Pipeline Company” means the company referred to in Article 16.

1.1.60 “Production Licence” means a petroleum production licence granted pursuant to Section 22 of the Act and the provisions of this Agreement.

1.1.62 “Seaboard Terminal” means a terminal at any seaport agreed to by the parties at which crude oil is lifted into the tankers for export.

1.1.63 “Signature Bonus” means a single, non-recoverable lump sum payment by the Licensee to Government upon the granting of the Exploration Licence.

1.1.64 “Tax Year” shall mean a period of twelve (12) consecutive Calendar Months commencing on 1st January and ending on the following 31st December, according to the Gregorian Calendar.

1.1.65 “Uganda Shilling” means the lawful currency of the Republic of Uganda.

1.1.66 “USD” or “US$” means “United States Dollars”

1.1.67 “Venture Assets” means the property whether real or personal owned or acquired by Licensee in connection with Petroleum Operations hereunder and includes the Exploration Licence and any Production Licences granted hereunder.

1.1.68 “Work Programme and Budget” means an itemised statement of Petroleum Operations to be carried out in the Contract Area and a detailed breakdown of the Contract Expenses associated therewith, including both capital and operating budgets, all in a form acceptable to the Government.

1.2 Unless otherwise defined herein, capitalised terms shall have the meaning ascribed to them in the Act.
2.1 This Agreement constitutes an agreement made under Section 3 of the Act.
ARTICLE 3
Responsibilities and Grant of Rights

3.1 Contemporaneously herewith, Licensee is granted, under and in accordance with the Act, an Exploration Licence in respect of the Contract Area in the form set forth in Annex A which shall take effect on the Effective Date. The said Exploration Licence shall have a term not exceeding twelve (12) Calendar Months counted from the Effective Date. There shall be no renewal for this Exploration Licence.

3.2 Licensee shall, subject to the Act and Regulations and the terms and conditions herein set forth, have the exclusive right to conduct Petroleum Operations within the Contract Area for the term of the Exploration Licence and any Production Licence granted to it in accordance with all applicable legislation and provisions of this Agreement.

3.3 Licensee, on giving to the Government not less than ninety (90) days notice in writing (the “Surrender Notice”), may:

3.3.1 Surrender its rights and be relieved of its obligations in respect of the whole of the Contract Area if its minimum work and financial obligations under Article 4 have been fulfilled in accordance with Section 52 of the Act;

3.3.2 in respect of the Exploration Licence, elect to surrender its rights in respect of the whole of the Contract Area and be relieved of its minimum work and financial obligations under Article 4 at any time within sixty (60) days following the date on which Licensee completes:

a) the interpretation of seismic works exceeding those provided under paragraph 4.2.1 and actually being executed; or

b) the drilling, testing or plugging of any Exploration Well actually being executed at the end of the preceding Exploration Period in which event(s) the Surrender Notice shall be reduced to third (30) days; and
3.3.3 at any time after the grant of the Exploration Licence, surrender its rights and be relieved of its obligations in respect of any block or blocks forming part of the Contact Area provided, however, that no surrender by Licensee of its rights over any part of the Contract Area shall relieve Licensee of its obligation to satisfy the minimum work and financial obligations referred to in Article 4 hereof in respect of the Exploration Period during which it gives the Surrender Notice.

3.4 The Government reserves the right to grant licences to other legal persons to prospect for, explore for and mine minerals other than petroleum within the Contract Area, and further reserves to itself the right to so prospect, explore and mine directly. Licensee shall use its best efforts to avoid obstruction or interference with such Licensees’ or Government operations and similarly the Government shall use its best efforts to ensure that its own operations or those of third parties do not obstruct or interfere with Licensee’s Petroleum Operations within the Contract Area.

3.5 In the event that Licensee discovers minerals other than Petroleum in the Contract Area which may be of economic value, it shall report such discovery to the government within thirty (30) days of the making of such discovery and shall supply a sample of such minerals to the Government.

3.6 If more than one person or entity comprises Licensee, the duties and obligations of the persons or entities constituting Licensee hereunder shall be joint and several.

3.7 The Government shall in as far as is permitted by the law assist the Licensee to obtain rights of ingress to and egress from the Contract Area and any petroleum facilities used in Petroleum Operations and to obtain rights of way and rights to construct related Petroleum Operations facilities as may be reasonably required by the Licensee. The Licensee shall meet all the associated costs and expenses.
4.1 Licensee shall commence Exploration Operations in the Contract Area within two (2) Calendar Months of the Effective Date.

4.2 In discharge of its obligation to carry out Exploration Operations in the Contract Area, Licensee shall, in accordance with the provisions of this Article, carry out the following minimum work programmes and shall expend not less than the corresponding sums specified.

4.2.1 **Minimum Work Programme**

- Preliminary geological and geophysical studies.
- The drilling of three (03) wells.

4.2.2 **Minimum Exploration Expenditure**

<table>

4.3 For the purpose of this Article, Exploration Wells shall, except as provided in paragraph 4.2, be drilled on a location determined by Licensee and the Government and to a depth necessary for the evaluation of the sedimentary section established by the available data as the deepest objective formation and consistent with Good Oilfield Practices, unless before reaching the aforementioned depth:

a) basement is encountered;

b) further drilling would present a foreseeable danger which cannot reasonably be contained;

c) impenetrable formations are encountered;

d) significant hydrocarbon-bearing formations are encountered which require protecting, thereby preventing such depth from being reached.
In such circumstances, the drilling of any Exploration Well may be terminated at a lesser depth and such Well shall, except where the circumstances described in subparagraphs (a), (b) and (c) immediately above occur before Licensee has attained two thirds of the target depth provided for in the drilling programme, relating to such well, be deemed to have satisfied the minimum depth criteria provided for hereunder. In all other circumstances in which a Well is terminated at a lesser depth, Licensee shall have the option to either (i) drill a substitute Exploration Well or (ii) pay to the Government the amount by which the drilling budget for such well on a dry hole basis, pursuant to paragraph 4.2 exceeds actual expenditures incurred in the drilling thereof.

For the purpose of this paragraph 4.3, the term “Basement” shall mean the geological basement below which hydrocarbons cannot be found and produced.

4.4 Compliance with the required minimum Exploration Expenditures shall not relieve Licensee of its obligation to comply with the required minimum Work Programme nor shall compliance with the required minimum Work Programme relieve Licensee of its obligation to comply with the required minimum Exploration Expenditures.

4.5 The Exploration Licence issued to Licensee pursuant to Article 3 shall be on terms and conditions relating to Minimum Work Programmes and Exploration Expenditures which correspond to the obligations of Licensee under this Article and it is accordingly understood and agreed that any discharge by Licensee of its obligations under this Article will discharge the minimum work and expenditure obligations of Licensee in respect of the Exploration Licence issued pursuant to Article 3 and the terms and conditions of such Licence shall be drawn accordingly.

4.6 (a) On or before the Effective Date, the Licensee shall provide a Performance Security in the form of Insurance Bond or Bank Guarantee in the form set forth in Annex D-I, and amounting to United States Dollars five hundred thousand(USD 500,000.00) which shall, inter alia, guarantee the payment by Licensee of the sums, if any, due and payable to the Government pursuant to paragraph 4.6(b) and (c) hereunder.

(b) If, upon the expiration of the Exploration Licence, or upon the date of termination of this Agreement, or upon surrender of the entire Contract Area by Licensee pursuant to paragraph 3.3, whichever first occurs, Licensee has not expended for Exploration Operations sums (including any sums previously paid pursuant to paragraph 4.6(c)) at least equal to the total minimum Exploration Expenditures required hereunder the shortfall amount corresponding to the unexpended minimum Exploration Expenditures shall be paid by Licensee to the Government.

(c) If, at the end of the term of the Exploration Licence Licensee has not expended for Exploration Operations sums at least equal to the minimum Exploration Expenditures required hereunder, the shortfall amount corresponding to the unexpended minimum Exploration Expenditures shall be paid by the Licensee to the Government.
4.7 For the purpose of this Agreement, and without prejudice to their recoverability as Contract Expenses for other purposes under this Agreement, expenditure by Licensee on the following shall not be treated as Exploration Expenditures for the purpose of satisfying the minimum Exploration Expenditure obligations set out in paragraph 4.2:

(a) any Appraisal Programme required to discharge Licensee’s obligations under Section 18(1)(b) of the Act;

(b) the value of stock items listed in inventory; provided, however, that any loss on the disposal of any such stock item, as well as the book value of those stock items (if any) which become the property of the Government pursuant to paragraph 22.2, shall be treated as Exploration Expenditure obligations set forth in paragraph 4.2;

(c) property purchase or rental in connection with Petroleum Operations;

(d) the training of Ugandan nationals pursuant to Article 21 of this Agreement; and

(e) any annual charges in respect of surface rentals due in accordance with Article 29 of this Agreement.
ARTICLE 5

Advisory Committee

5.1 Not later than thirty (30) days after the Effective Date, a Committee shall be established by the Government and Licensee to be known as the Advisory Committee. The Advisory Committee shall consist of four (4) members, two (2) of whom shall be appointed by the Government and two (2) by Licensee. The Chairman of the Advisory Committee shall be designated by the Government from among the members it has appointed. The Government and Licensee shall also designate alternate members and shall have the right to designate an alternate member at any time, which right shall be exercised by written notification addressed to the other Party hereto. In the case of absence or incapacity of a member of the Committee, his alternate shall automatically assume the rights and obligations of the absent or incapacitated member.

5.2 All meetings of the Advisory Committee shall be held in Kampala or such other place in Uganda or elsewhere as may be unanimously agreed by the members of the Committee. Ordinary meetings of the Advisory Committee shall be held at least twice a year during the Exploration period and at least once a Calendar Quarter following the grant of the first Production Licence. Special meetings of the Advisory Committee may be called on reasonably notice by either Party for the purposes of reviewing any major development or problems in Petroleum Operations, and recommending appropriate action to be taken. Meetings of the Committee shall require a quorum of all four (4) members. The secretaryship of the Advisory Committee shall be entrusted to Licensee. Votes at the Advisory Committee meetings shall only be made on matters included in the respective agenda, unless the members of the Advisory Committee unanimously agree otherwise. Any member of the Committee may vote by written and signed proxy held by another member. The Government and Licensee shall have the right to bring expert advisors to any meeting of the Committee to assist in the discussion of technical and other matters requiring expert advice provided that they obtain a pledge of confidentiality from the said experts. It is understood that the experts giving assistance to the Government must not demonstrate any links with oil companies which are competing against the interests of the Licensee.

5.3 Without prejudice to the rights and obligations of Licensee for the conduct of the Petroleum Operations carried out hereunder, the Advisory Committee shall have the following functions:

5.3.1 to review and approve:

(i) any proposed Exploration Operations contained in the Work Programmes and Budgets, or any amendment thereto, presented thereto by Licensee under Article 6; and
any Appraisal Programmes, or any amendment thereto, presented thereto by Licensee under Article 7 until such time as the provisions of paragraph 5.3.2 are applicable;

5.3.2 at any time after the date on which an application for a Production Licence is made by Licensee in respect of any part of the Contract Area, and for as long as there is production from the Contract Area, to review and approve, subject to such reasonable modifications as the Advisory Committee may consider necessary, any Appraisal Programmes, or any material amendments thereto, presented to the Committee by Licensee under Article 7;

5.3.3 to review and approve:

(i) Work Programmes and Budgets, or any material amendment thereto, presented to the Advisory Committee by Licensee which relate to Development Operations; and

(ii) drilling programmes and related budgets submitted to the Advisory Committee by Licensee pursuant to, and subject to the conditions provided in Article 4 in respect of Exploration Wells;

5.3.4 to review and approve the production forecast statements prepared by Licensee prior to their presentation to the Government pursuant to paragraph 7.8;

5.3.5 to ensure that the accounting of costs and expenses and the maintenance of operating records and reports for the Petroleum Operations are made in accordance with this Agreement and the accounting principles and procedures generally accepted in the international petroleum industry; and

5.3.6 to review and make recommendations to Licensee with respect to any proposals made by Licensee concerning the application for the surrender or relinquishment of any part of the Contract Area.

5.4 Decisions of the Advisory Committee pursuant to paragraph 5.3 shall be made unanimously through consultation. All decisions made unanimously shall be equally binding upon the Government and Licensee. Without limitation to the foregoing, any Development Plan recommend by the Advisory Committee shall be deemed to have met the requirements of Section 21(1) of the Act. Regarding the matters on which agreement cannot be reached, the Government and Licensee may convene another meeting and shall attempt, in good faith, to find another solution. However, if the
Advisory Committee fails thereafter to reach a decision on the matters specified in paragraph 5.3 above;

(i) within thirty (30) days of the date of the Advisory Committee meeting at which Licensee’s first submission in respect of the matters specified in paragraphs 5.3.1, 5.3.5 and 5.3.6 above is considered; or

(ii) within forty-five (45) days of the date of the Advisory Committee meeting at which Licensee’s first submission in respect of the matters specified in paragraphs 5.3.2, 5.3.3 and 5.3.4; is considered;

the Parties may refer for matter for determination in accordance with paragraph 26.2. The determination in accordance with paragraph 26.2 shall be final and with this determination the programme, budget or forecast shall be deemed to have been approved by the Advisory Committee as determined, except that Licensee, may, in the case of a determination made concerning matters specified in paragraph 5.3.2, within thirty (30) days of receipt of such determination notify the Government that the Discovery to which such programme relates is no longer considered to be of commercial or potential commercial interest, as the case may be, within the meaning of proviso (i) to Section 18(1)(b) of the Act. If Licensee so notifies the Government, the provisions of Section 19 of the Act shall apply.

Licensee’s proposal shall prevail provided that such proposal is not inconsistent with the relevant provisions of this Agreement and in particular, the minimum work and expenditure obligations specified in Article 4.

5.5 All costs and expenses associated with the activities of the Advisory Committee which are borne by Licensee may be treated as Contract Expenses.
ARTICLE 6

Work Programmes and Budgets

6.1 So long as any Exploration Licence or Production Licence issued to Licensee herein remains in force, within thirty (30) days from the Effective Date, Licensee shall prepare and submit to the Advisory Committee for its review and, where required pursuant to Article 5, approval, a detailed Work Programme and Budget, setting forth the Exploration Operations and/or Development Operations which Licensee proposes to carry out during the licence period and the estimated cost thereof. The Work Programme and Budget for the period from the date of effectiveness of the Exploration Licence to the end of the said licence shall be presented to the Advisory Committee within thirty (30) days of the Effective Date for review in accordance with paragraph 5.3.1.

6.2 A Work Programme and Budget submitted to the Advisory Committee during the Exploration Period pursuant to this Article and every revision or amendment thereof shall be consistent with the requirements set out in Article 4 relating to minimum work and expenditure for the Exploration Period within which the Work Programme and Budget will fall.

6.3 After giving notice to the Advisory Committee, Licensee may amend any aspect of the Work Programme or Budget relating to Exploration Operations submitted to the Advisory Committee provided such amendment is consistent with Licensee’s obligations under Article 4. Any notice given pursuant to this paragraph shall state the reasons why, in the opinion of Licensee, an amendment is necessary or desirable and the views and recommendations of the Advisory Committee with respect to any such amendment shall be given due consideration by Licensee. In all other cases where Licensee wishes to amend the Work Programme and Budget, the amendment shall be referred to the Advisory Committee for its review and approval, which approval shall not be unreasonably withheld, before Licensee may proceed with its operations on the basis of such amended Work Programme and Budget.
ARTICLE 7
Discovery, Development and Production

7.1 Where, pursuant to Section 18 of the Act, notice has been given to the Government of a Discovery in the Contract Area, Licensee shall forthwith inform the Government of the steps it proposes to take to satisfy the requirements of Section 18(1)(a)(iii) of the Act.

7.2 Unless, following a Discovery by Licensee in the Contract Area, Licensee gives in respect of such Discovery a notice to the Minister for the purpose of paragraph (i) of the provision to Section 18(1)(b) of the Act or unless the provisions of paragraph (ii) of that proviso are otherwise applicable, Licensee shall promptly after the technical evaluation of the test results relating to such Discovery has been completed, prepare and submit for the consideration of the Advisory Committee its proposals for an Appraisal Programme to meet its obligations as Licensee under the Act. Notwithstanding the foregoing, in the event that Licensee notifies the Government within thirty (30) days following the date on which its technical evaluation of the test results relating to a Discovery has been submitted to the Government, the said Discovery does not in and of itself warrant immediate appraisal and provides reasonable justification therefor, an exemption from the requirements of Section 18 (1)(b) of the Act may be granted by the Minister, pursuant to paragraph (ii) of the proviso to that Section, for so long thereafter as Licensee is carrying out continuous Exploration Operations in the Contract Area.

7.3 As soon as the Advisory Committee has, pursuant to paragraph 5.3.2, reviewed and approved an Appraisal Programme submitted by Licensee as aforesaid, Licensee shall promptly thereafter commence implementation thereof.

7.4 (i) If during the term of any Exploration Licence, Licensee makes a Discovery of Petroleum in the Contract Area which alone, or in conjunction with other discoveries previously made in the Contract Area might be developed and brought into early production with a view to satisfying the internal consumption requirements of Uganda, the Government may notify Licensee accordingly upon which the Parties shall meet to determine whether the development of the said Discovery or Discoveries would be economically and technically feasible.

(ii) In determining whether the Discovery or Discoveries as the case may be is (are) economically and technically feasible, the Parties shall consider whether an early production scheme would, inter alia, jeopardise the subsequent recovery of Petroleum from the Petroleum Reservoir(s), create a health or safety risk or would otherwise involve a departure from the standards of Good Oilfield Practice.

(iii) In the event that the Parties determine the Discovery or Discoveries as the case may be to be economically and technically feasible and agree upon the terms and conditions for the implementation of an early production scheme (including offtake arrangements), a Production Licence shall be granted to Licensee in
respect of the Discovery Area(s) subject thereto and thereafter Licensee shall complete the facilities necessary for the Government to take delivery of production from the said Discovery Area(s) ex-field and all costs associated with the taking of delivery therefrom shall be for the Government’s account.

The production shall be sold at Market Price as computed in accordance with Article 15 and payment shall be made in United States Dollars within sixty (60) days following the end of the Calendar Month in which deliveries are made.

It is understood, however, that Licensee shall not be required to produce crude oil at a rate higher than the Maximum Efficient Rate in connection with the scheme.

(iv) Any crude oil production delivered to the Government pursuant to the provisions of this paragraph 7.4 (iii) shall serve to reduce Licensee’s obligation to otherwise supply crude oil for the internal consumption requirements of Uganda pursuant to paragraph 18.1 and will not prejudice Licensee’s rights under paragraph 7.8 thereafter in respect of the subsequent grant of a Production Licence in relation to a wider Discovery Area(s) which includes the said Discovery Area(s). It is understood, however, that crude oil production shall continue to be made available to the Government in accordance with the terms and conditions agreed to in 7.4 (iii) above.

(v) Nothing in this Article shall require Licensee to undertake the completion of the field facilities required for the early production scheme in the event that Licensee reasonably determines that such scheme (including the terms and conditions for the implementation thereof) is not economically or technically feasible.

7.5 Before applying for a Production Licence pursuant to Section 20 of the Act, Licensee shall consult with the Advisory Committee in connection with the preparation of a Development Plan to be submitted by Licensee to the Minister in accordance with Section 21 of the Act.

7.6 If the Parties are unable to settle amicably any dispute or difference as to whether the Development Plan meets the requirements of Section 21 of the Act within twelve (12) Calendar Months of the date of the Minister’s aforesaid notification, either Party may refer the matter to a sole expert pursuant to Article 26.

If, as a consequence of the said award, Licensee determines that the development project (in respect of which the Development Plan was submitted) ceases to be commercially attractive, Licensee may so notify the Government in writing within six (6) Calendar Months of the date of said award, whereupon the Government shall have the right to require Licensee to relinquish its rights with respect to the Discovery Areas which are the subject of such Development Plan and to forfeit its rights to any subsequent production therefrom.
7.7 Upon submission by Licensee of a Development Plan that meets the requirements of Section 23 of the Act together with the application for a Production Licence, the Minister shall promptly issue to Licensee a Production Licence in the form attached hereto in Annex “B-II” covering the Development Area for a period not exceeding twenty five (25) years counted from its date of issuance.

A Production Licence shall be renewable upon application, by Licensee in the prescribed manner, for a term equal to the period between the initial grant of such Production Licence and the commencement of Commercial Production, but in no event exceeding five (5) years. The Minister shall not impose conditions for the granting or renewal of a Petroleum Production Licence under Sections 22(a) and 28 of the Act which are inconsistent with the terms of this Agreement or the requirements of the Act.

7.8 Licensee shall use its best efforts to produce Crude Oil from each Development Area at the Maximum Efficient Rate. The Maximum Efficient Rate of production for Crude Oil and the production rate for Non-associated Gas shall be estimated in the Development Plan for each such area.

Such rates shall be reviewed annually at the time of submission by Licensee of the annual Work Programme and Budget to the Advisory Committee pursuant to paragraph 5.3.3 and revised, if necessary, by mutual agreement.

7.9 Not less than sixty (60) days prior to the beginning of each Calendar Year following the commencement of Commercial Production, Licensee shall prepare and furnish to the Government for its review and approval (which approval shall not be unreasonably withheld) a forecast statement setting forth by Calendar Quarter, the total quantity of Crude Oil (by quality, grade and gravity) and Natural Gas that Licensee estimates can be produced, saved and transported hereunder from each Development Area during such calendar year in accordance with Good Oilfield Practices. Licensee shall endeavour to produce in each Calendar Year the forecast quantity.

7.10 In the event that Licensee wishes to establish a refinery to refine the Crude Oil and Natural Gas that the Licensee estimates can be produced, Government may grant the Licensee the right to establish such refinery.
ARTICLE 8

Records, Reports, Data and Inspection

8.1 Licensee shall prepare and maintain accurate and current records of Petroleum Operations and its activities in the Contract Area hereunder. The accounting records will be maintained in accordance with accepted international petroleum industry practices and standards. Licensee shall furnish the Government in conformity with the Act and this Agreement, and as the Government may reasonably require information, reports and data concerning its activities and operations under this Agreement.

8.2 The Government and its duly authorised representatives shall have full and complete access to the Contract Area at all reasonable times with a right to observe Petroleum Operations and upon at least thirty (30) days advance written notice to the Licensee shall have the right to inspect all assets, records and Data owned or maintained by Licensee relating to Petroleum Operations and this Agreement. In doing so, the Government and its representatives shall not unduly interfere with Licensee’s Petroleum Operations. Licensee shall provide the Government on a daily basis with copies of any Data acquired in the Petroleum Operations (including geological and geophysical reports, logs and well surveys) and information and final interpretations of such Data in the Licensee’s possession that are acquired during Petroleum Operations. However, the Government and its representatives may make a reasonable number of surveys, drawings, tests and copies for the purpose of implementing this Agreement. In so doing, the Government and its representatives shall be entitled to make reasonable use of the equipment or instruments of Licensee provided that no damage to the equipment or instruments or interference with the Petroleum Operations hereunder shall result after such use. The Government and its representatives shall be given reasonable assistance by Licensee for such functions, and Licensee shall afford to the Government and its representatives all facilities and privileges afforded to its own personnel in the field including the use of office space and housing free of charge.

8.3 Licensee shall save and keep for the duration of this contract a representative portion of each sample of cores, cuttings and fluids taken from all Wells drilled which shall be forwarded to the Government or its representatives at such time and in the manner directed by the Government. All cores and samples acquired by Licensee shall be available for inspection by the government or its representatives at all reasonable times. Notwithstanding the above, Operator shall supply to the Commissioner, Petroleum Exploration and Production Department a telefaxed or emailed summary of field geological, and/or geophysical operations from any field geological or geophysical survey being carried out including but not limited to: details of locations sampled, foot traverses measured, kilometers of magnetic, gravity, seismic data acquired, etc.; an on a daily basis a telefax/email containing details of drilling operations carried out during the previous 24 hours including but not limited to a summary of lithologies penetrated, encountered tops
encountered, gas and oil shows, tests, cores and logging runs, future plans (including abandonment plans at least 24 hours prior to inception) and on a regular basis, and at any rate not later than four months after the conclusion of any geological, geophysical or drilling operation, reproducible copies and digital tapes of all surface logs, magnetic gravity, seismic and other records as well as processed data, and all subsurface information including but not limited to geological, electrical, mechanical and other logs, surveys, reports, records, from a well on the geology and drilling operations carried out as well as final well reports and final completion logs, together with one envelope of washed and dried ditch cuttings and one cloth bag of unwashed ditch cuttings at all sampling intervals and one half of each core.

8.4 Notwithstanding paragraph 8.3 above, Licensee shall be freely permitted to export samples for purposes of testing and analysis. Originals of technical data and records can be exported with the permission of the Government provided that an exact copy of that data, on a storage media similar to that being exported, is maintained in the Republic of Uganda and provided that such exported records and data shall be repatriated to the Republic of Uganda.

8.5 In addition to the material stipulated in paragraph 8.3, supra, Licensee shall provide, in accordance with the standards and practice of the Petroleum Industry, at no cost to the Government, in an appropriate and reproducible form and in a prompt and timely manner all maps, sections, profiles and other representative original and interpretational geophysical, geological or engineering data (“Data”). Such Data (which shall include all magnetic tapes and any other storage media, whether raw, processed or reprocessed) shall be forwarded to the Government or its representatives in the prescribed manner or otherwise at such time and in the manner directed by the Government.
Subject to the provisions of paragraph 8.6, all original data resulting from Petroleum Operations are the property of the Republic of Uganda, including, but not limited to, geological, geophysical, petrophysical, engineering, well logs, magnetic tapes, cuts of core and cutting samples, production data and completion status reports and any other data which, the Licensee may compile during the term hereof, including all reports, analyses, interpretations, maps and evaluations thereof prepared by the Licensee and any sub-licensees or consultants to the Licensee or by Affiliated Companies, and cuttings of all samples that have been obtained or compiled during the term hereof (in this Agreement referred to as “Data”).

8.6 Except as provided in paragraphs 8.7 and 8.8, all Data submitted to the Government by Licensee shall be kept confidential and not reproduced or disclosed to third parties by any party to this Agreement except, in the case of disclosure by the Licensee, with the prior written consent of the Government or, in the case of disclosure by the Government prior to the relinquishment of the area to which they relate, with the prior written consent of Licensee, which consents (whether of the Government or Licensee) shall not be unreasonably withheld or delayed.

8.7 The provisions of paragraph 8.6 shall not prevent disclosure by:

(i) Licensee to an Affiliated Company, its home government or any department, agency or instrumentality thereof, if required by law, recognised stock exchanges on which shares of the Licensee or its Affiliated Companies are traded, financial institutions and professional advisers and arbitrators and experts appointed pursuant to Article 26 of this Agreement;

(ii) Licensee to bona fide prospective assignees of a Participating Interest or to a corporation with which Licensee is conducting bona fide negotiations directed towards a merger or consolidation, upon fifteen (15) days prior written notice to the Government indentifying the parties to which disclosure will be made; provided, however, that the Government may veto any such disclosure where a party to which such disclosure is proposed is in bona fide discussions with the Government regarding rights to conduct Petroleum Operations in Uganda;

(iii) The Government to any agency of the Government, financial institution or person acting as a consultant or professional adviser to the Government,
and arbitrators and experts appointed pursuant to Article 26 of this Agreement;

(iv) The Government for statistical purposes or in connection with award of new acreage, and

(v) The Licensee or one or more of its Affiliated Companies under Applicable Law or by a government order, decree, regulation or rule of any recognized stock exchange on which it or its Affiliated Company’s shares are listed.

All Data disclosed to third persons shall be disclosed on terms, which to the extent possible ensure that the same are treated as confidential by the recipient for so long as such Data remains subject to the confidentiality undertakings specified in paragraph 8.6.

8.8 Without prejudice to the above provisions, the Government may provide data and information, that may come into its possession and may be relevant to enable the Licensee carry out its exploration activities under this Agreement. The Data shall be treated with confidentiality and shall not be disclosed to third parties without the written consent of Government.

8.9 None of the Parties hereto shall be bound by the confidentiality undertaking set forth in paragraph 8.6 with respect to any Data which are or become in the public domain through no fault of such Party or which were already known by such Party before the Effective Date or which became known to such Party other than by reason of a breach of the undertakings in paragraph 8.6.

8.10 Licensee shall disclose to Government the technology necessary for the evaluation and understanding of any raw data or processed data resulting from Licensee’s work in the Contract Area.
ARTICLE 9

Bonuses

9.1 Upon the signing of this Agreement Licensee shall pay to Government a sum of United States dollars two hundred thousand (US$200,000.00) as Signature Bonus.

9.2 Upon declaration of any discovery made pursuant to the Exploration Licence, Licensee shall pay to Government a sum of United States dollars two million (US$2,000,000) as Discovery Bonus.
ARTICLE 10

Royalty and Additional Royalty

10.1 Royalty

10.1.1 In respect of the requirements of Section 47 of the Act, Licensee shall pay to Government the following Royalty on the Gross Total Daily Production in Barrels of oil per day (BOPD) for each Contract Area, such Gross Total Daily Production defined as the total output of crude oil (including liquid petroleum gas) less all water and sediments produced and all amounts of hydrocarbons re-injected into the Petroleum Reservoir.

<table>
<thead>
<tr>
<th>Gross Total Daily Production (BOPD)</th>
<th>Royalty</th>
</tr>
</thead>
<tbody>
<tr>
<td>(i) Where the production does not exceed 2,500</td>
<td>5%</td>

<td>10%</td>
</tr>
<tr>
<td>(iv) Where the production exceeds 7,500</td>
<td>12.5%</td>
</tr>
</tbody>
</table>

10.1.2 The Royalty stipulated in paragraph 10.1.1 shall be received by Government on a monthly basis whether in kind or in cash depending on Government’s preference. Government shall have the right to receive Royalty in cash US Dollars, on a Monthly basis, notifying the Licensee of its choice 30 days in advance. If such notification is not made by Government, the Royalty shall be collected by Government in kind at the point of collection.

10.1.3 Royalty shall be calculated on a daily basis on an incremental basis and not on total daily production.

10.1.4 The BOPD calculation shall be done monthly on the basis of daily production.

10.1.5 Save for the Additional Royalty referred to in Article 10.2.1(B), Royalties on gas (Gas Royalty) will be negotiated upon the discovery of gas.
10.2 Additional Royalty

10.2.1 (A) Licensee shall pay to Government the following Additional Royalty as a percentage of the value of the recovered reserves on the basis of Gross Total Daily Production in Barrels of oil equivalent per day (BOEPD) for each Contract Area, such Gross Total Daily Production defined as the total output of crude oil (including liquid petroleum gas but excluding gas which is provided for Article 10.2.1(B)) less all water and sediments produced and all amounts of hydrocarbons re-injected into the Petroleum Reservoir.

**Recovered Cumulative Petroleum (Million Barrels) Additional Royalty**

| (i) | Where the recovered cumulative Petroleum does not exceed 50 | 2.5% |
| (ii) | Where the recovered cumulative Petroleum is higher than 50 but does not exceed 100 | 5% |
| (iii) | Where the recovered cumulative Petroleum is higher than 100 but does not exceed 150 | 7.5% |
| (iv) | Where the recovered cumulative Petroleum is higher than 150 but does not exceed 250 | 10% |
| (v) | Where the recovered cumulative Petroleum is higher than 250 but does not exceed 350 | 12.5% |
| (vi) | Where the recovered cumulative Petroleum is higher than 350 | 15% |

(B) Licensee shall pay to Government an Additional Royalty on gas which is sold to the local market or exploited for export (Sales Gas). Such Additional Royalty on Sales Gas shall be the percentage shown below and shall be calculated by reference to the volume of Sales Gas sold by Licensee for each Contract Area.

**Recovered Sales Gas Additional Royalty**

| (i) | Where the recovered Sales Gas does not exceed 300 billion Cubic Feet (bcf) | 2.5% |
| (ii) | Where the recovered cumulative Sale Gas is higher than 300 bcf but does not exceed 600 bcf | 5% |
(iii) Where the recovered cumulative Sales Gas is higher than 600 bcf but does not exceed 900 bcf 7.5%

(iv) Where the recovered cumulative Sales Gas is higher than 900 bcf but does not exceed 1.5 trillion Cubic Feet (tcf) 10%

(vii) Where the recovered cumulative Sales Gas is higher than 1.5 tcf but does not exceed 2 tcf 12.5%

(viii) Where the recovered cumulative Sales Gas is higher than 2 tcf 15%

and Cubic Feet shall mean the volume of gas that occupies one (1) cubic foot of space as measured at a temperature of sixty degrees Fahrenheit (60°F) and at the absolute pressure of fourteen decimal six nine six (14.696) pounds per square inch.

10.2.2 The Additional Royalties stipulated in paragraph 10.2.1 shall be received by Government on a monthly basis whether in kind or in cash depending on Government’s preference. Government shall have the right to receive such Royalties in cash Dollars, on a Monthly basis, notifying the Licensee of its choice thirty (30) days in advance. If such notification is not made by Government, the relevant Royalty shall be collected by Government in kind at the point of collection.

10.2.3 The BOEPD calculation pursuant to Article 10.2.1(A) shall be done monthly on the basis of daily production and the Additional Royalty on Sales Gas calculation pursuant to Article 10.2.1(B) shall be done monthly on the basis of the volumes of Sales Gas sold by the licensee multiplied by the gas price.
ARTICLE 11
State Participation

11.1 Government or its Nominee may elect to enter into a Joint Venture Agreement with Licensee thereby allowing for State Participation for no more than fifteen percent (15%) and Government shall inform Licensee of its decision in writing within 120 days of the receipt of the application for a Production Licence. Government or its nominee shall be entitled to participate in Development Area by Development Area. Licensee agrees to carry the costs of Government or its Nominee through development to production. These costs are recoverable including interest at the London Inter Bank Offer Rate (LIBOR) quoted at or about 11:00 am on the date next to when they were incurred by the Licensee. These costs will be repaid out of the Licensee’s cost recovery oil. Government will be responsible for any taxes arising out of its share of the Joint Venture.

11.2 (a) For purposes of this provision the Venture Assets attributable to a Development Area (hereinafter called the “Joint Venture Assets”) are:

(i) In case of the first production Licence granted, the Production Licence and any real or personal property wherever the same may be situated, acquired for the purpose of carrying on Joint Operations in the Development Area subject thereto or acquired for the purpose of carrying on Petroleum Operations in the Contract Area where such property was acquired before the grant of the first Production Licence;

(ii) in the case of a second or subsequent Production Licence granted, that Production Licence and any real or personal property acquired for the purpose of carrying on Joint Operations in that Development Area or acquired for the purpose of carrying on Petroleum Operations or Joint Operations in the Contract Area where such property was acquired after the date on which a Production Licence was last granted and before the grant of the second or, as the case maybe the next subsequent Production Licence.
(b) Immediately following the grant of each Production Licence, Licensee, or each entity comprising Licensee at that time, will promptly take such action as may be necessary to assign to the Nominee of the Government, an undivided proportionate share in the Venture Assets equal to the Nominee of the Government’s Participating Percentage Interest with effect that thereafter, Licensee, or each such entity, shall have an interest in the Joint Venture Assets (hereinafter referred to as its “Joint Venture Interest”) equal to its Participating Interest in those Assets immediately before the grant of such Production Licence reduced by the product of that interest and the Joint Venture Interest acquired by the Nominee of the Government.

11.3 “Participation Share of Production” means a proportion of the Petroleum produced and saved from the Contract Area and not used or lost in Joint Operations and such proportion attributable to Licensee and the Nominee of the Government shall be equal to their respective Joint Venture Interests in Joint Venture Assets.
ARTICLE 12
Cost recovery

12.1 For purposes of cost recovery, ring fencing around each Contract Area shall apply. In the event that a Licensee has more than one Contract Area, the calculations shall be done on a contract by contract basis. There shall be no consolidation.

12.2 All Exploration Expenditures, Development and Production Expenditures and Operating Expenses, as defined in Annex C, incurred by the Licensee shall be recovered by 60% of gross oil production and 70% for gas after deduction of the Royalties specified in paragraphs 10.1 and 10.2.

12.3 The Licensee shall carry forward to subsequent years all unrecovered costs until full recovery is completed.

12.4 Not less than thirty (30) days prior to the beginning of each Calendar Year, Licensee shall prepare and furnish to the Government for approval, which approval shall not be unreasonably withheld, an estimate by Calendar Quarters for the forthcoming Calendar Year of (i) all Contract Revenues and Contract Expenses to be incurred, (ii) Income Tax of Licensee (or each entity comprising Licensee, as the case may be) in respect of taxable income derived from Petroleum Operations carried out hereunder, for such Calendar Year. Such estimate shall be consistent with the forecast statement furnished pursuant to paragraph 7.9 and the annual Work Programme Budget approved by the Advisory Committee pursuant to Article 5, and shall set forth the other assumptions and projections upon which it is based. Calendar Quarterly updates of such estimate shall be submitted by Licensee to the Government for approval (which approval shall not be unreasonably withheld) within thirty (30) days after the end of each Calendar Quarter.
13.1 After the cost recovery specified in paragraph 12.2, the following Government/Licensee split will apply on the remaining total daily production (Profit Oil).

13.2 The Government/Licensee profit oil split is based on incremental production.

13.3 Government shall have the right to receive its share of Profit Oil in cash in US Dollars or in kind, on a Calendar Quarter basis, notifying the Licensee of its choice thirty (30) days in advance. If such notification is not made by Government, the Profit Oil shall be collected by Government in kind at the point of collection. The valuation shall be in accordance with paragraph 15.1.1.
ARTICLE 14

Taxation

14.1 All central, district administrative, municipal and other local administrators’ or other taxes, duties, levies or other lawful impositions applicable to Licensee shall be paid by the Licensee in accordance with the laws of Uganda in a timely fashion.

14.2 Any tax disputes shall be handled in accordance with the dispute resolution mechanisms stipulated under the Laws of Uganda.
ARTICLE 15

Valuation and Measurement of Petroleum

15.1 Crude Oil shall, for all purposes of this Agreement, be valued at the end of each Month as follows:

15.1.1 Except as provided in paragraph 15.1.2, the market price (“Market Price”) used to value Crude Oil shall, where arm’s length sales transactions is freely convertible currencies of Crude Oil to third parties have been made during the preceding month, be the weighted average of the per Barrel net realised price obtained FOB at the Seaboard Terminal or any other point of export for such arm’s length third party sales less, in the event that a separate pipeline company is formed pursuant to paragraph 16.2, the average tariff charge per Barrel for such month imposed by the pipeline company for transporting the oil from the Delivery Point to the Seaboard Terminal or any other point of export.

15.1.2 If less than fifty percent (50%), by volume, of Crude Oil sales from the Contract Area during such month fall under paragraph 15.1.1, the Market Price for such month shall be the simple arithmetical average of the prevailing per Barrel selling prices in such quarter of a basket of the three (3) most similar internationally trade crude oils listed by the American Petroleum Institute(API) and chosen from the major crude oil producing countries in the Arabian Gulf and Africa, taking into account differences in point of sale, quality, grade, gravity or sulphur content and any special terms and conditions relating to the sale of such crude oils, less, in the event that a separate pipeline company is formed pursuant to paragraph 16.2, the average tariff charge per Barrel for that month imposed by the pipeline company for the transportation of Crude Oil hereunder from the Delivery Point to the FOB Seaboard Terminal or any other point of export.

15.1.3 For the purposes of determining the Market Price as described above, no account shall be taken of Crude Oil sales to Affiliated Companies or restricted or distress transactions or any transactions not at arm’s length including government to government, barter or discount deals.

15.1.4 The Market Price shall be determined at the end of each month in United States Dollars in accordance with paragraph 15.1.
15.2 Any disagreement concerning the determination of Market Price under paragraph 15.1 shall be first considered by a pricing committee composed of two (2) representatives from the Government and two (2) representatives from Licensee. In the event the pricing committee cannot reach a unanimous decision within thirty (30) days of the end of the relevant month, either party may refer the matter for determination by an expert in accordance with paragraph 26.2. During such referral, which shall in no event take longer than thirty (30) days, the Market Price for the preceding month shall apply and adjustments, if any, shall be made in the following month based on the decision of the expert.

15.3 Natural Gas shall be valued in accordance with the provisions of paragraph 19.4.

15.4 Licensee shall install, operate and maintain at the Delivery Point equipment for measuring the volume and quality of the Petroleum produced and saved hereunder, including gravity, density, temperature and pressure measuring devices and any other devices that may be required for the purposes of implementing this Agreement. All measurement equipment and devices shall, prior to their installation or usage, be approved by the Government, which approval shall not be unreasonably withheld or delayed. The Government or its authorised representatives, at its own expense and risk (Save where injury or damage results from the Gross Negligence or Willful Misconduct of Licensee), shall have the right to inspect and require Licensee to test in its presence such equipment and devices at all reasonable times. The equipment and devices used or installed pursuant to this paragraph shall not be replaced or altered without the prior approval of the Government, which approval shall not be unreasonably withheld or delayed; provided, however, that in the case of urgency or so as to prevent the interruption of ongoing production, Licensee may proceed with such replacement or alteration without the prior approval of the Government but shall immediately thereafter notify the Government of such replacement or alteration.

15.5 Licensee shall undertake to measure the volume and quality of the Petroleum produced and saved hereunder, consistent with generally accepted practices in the international petroleum industry, with the frequency and according to procedures which shall be approved by the Government, which approval shall not be unreasonably withheld or delayed.
15.6 If it is determined, following an inspection or test carried out or witnessed by the Government or its representatives, that the equipment, devices or procedures used for measurement are inaccurate and exceed the permissible tolerances which shall be established by agreement between the Government and Licensee with reference to normal international oil industry standards, and such determination is verified by an independent surveyor of international repute acceptable to both parties, such inaccuracy shall be deemed to have existed for one-half of the period since the last pervious such inspection or test, unless it is proved that such inaccuracy has been in existence for a longer or shorter period. Appropriate adjusting payments or refunds covering such period shall be made within thirty (30) days from the date of such determination.
16.1 Licensee shall have the right to take and transport to an ocean port or other point of loading for export all Petroleum to which it is entitled hereunder and, in connection therewith, shall have the right to construct, operate and maintain an export pipeline, pumping stations, storage and related Seaboard Terminal or other facilities. The Government shall assist Licensee on matters involving rights of way, licences or other authorizations required under Uganda law in connection with such facilities and shall assist Licensee in its negotiations with neighbouring countries regarding rights of way and other conditions relating to the construction, operation and maintenance of such facilities in such countries.

16.2 It is understood by the Parties hereto that the construction, financing, operation and maintenance of an export pipeline, pumping stations and related Seaboard Terminal or other facilities shall be carried on through a separate pipeline company (“the Pipeline Company”) which shall be responsible for the handling and transportation of Petroleum from the Delivery Point in Uganda to the ocean port or other point of loading. In such event, the operations of the Pipeline Company will not be included within the meaning of Petroleum Operations under this Agreement and any related Licences.

16.3 Any Development Plan submitted to the Minister by Licensee pursuant to Section 21 of the Act shall include Licensee’s proposal with regards to the arrangements for the transportation to the terminal of each of the Parties’ production entitlements hereunder.

In the event the said transportation arrangements involve the formation of a separate Pipeline Company pursuant to paragraph 16.2, such proposals shall, unless otherwise agreed, be consistent with the following principles:

(a) each Party shall assume and pay the transportation tariffs charged by the Pipeline Company related to their respective shares of the Petroleum transported, which obligation may, in the case of the Nominee or the Government, be discharged by each of the Nominee and the Government foregoing in favour of the Pipeline Company a portion of their respective production entitlements so transported equal in value to the tariffs due in respect of the transportation of such production entitlements from the Delivery Point to the FOB Seaboard Terminal point of export;

(b) the transportation tariff charged, to the extent that the Parties hereto are able to determine the same, shall be set at a level at which the Pipeline Company will cover the costs of constructing, financing, operating and maintaining the export pipeline and related facilities together with a reasonable return thereon; such return will be determined having regard to the risks assumed by shareholders of
the Pipeline Company in outlaying the funds for the construction, operation and maintenance of such facilities and the cost of borrowing such funds as are required; and

(c) in the case of proposals by Licensee for the initial construction of the export pipeline, such proposals shall ensure that the pipeline and related facilities are of sufficient design capacity to handle and transport to the Seaboard Terminal or other delivery point, the estimated production entitlements of all Parties hereto from the Contract Area. If at any time, the throughput capacity of such facilities should be insufficient to handle and transport the respective production entitlements of such Parties, available capacity shall be shared between the Parties in the portion which each Party’s production entitlement bears to the total quantity of production which would otherwise be available for transportation hereunder.

16.4 The Government or its Nominee shall be fully involved in the determination of the tariff charges for the pipeline.

16.5 Transportation tariff charges of the Pipeline Company to the Delivery Point shall be allowable Contract Expenses hereunder.

16.6 Transportation tariff charges of the Pipeline Company, and any costs incurred beyond the Delivery Point shall not be allowable Contract Expenses hereunder.
17.1 It is understood that Licensee may itself purchase the Government’s or its Nominee’s production entitlement made available pursuant to this paragraph in lieu of disposal of same to third parties, in which event the price at which any such purchase by Licensee shall be effected shall be determined pursuant to Article 15. In the event that Licensee elects not to exercise its rights under paragraph 17.2, the Government may, at any time by notice in writing to Licensee, also require Licensee to assist the Government in the sale of all or part of the Government Production Share attributable to Government pursuant to Article 13. The terms and conditions on which Licensee will so assist the Nominee and/or the Government to any such disposal will be agreed between the Government and/or the Nominee, as the case may be, and Licensee.

17.2 Licensee shall have the right to purchase all or any part of the Government Production Share attributable pursuant to Article 13 upon giving written notice to the Government not less than ninety (90) days prior to the commencement of each six (6) Calendar Months of each Calendar Year, specifying the quantity which it elects to purchase, provided, however, that such right of purchase shall not apply in respect of all or any part of the Government Production Share which may be required to satisfy the requirements of internal consumption of Uganda or in connection with government to government sales or with barter transactions and provided further that the price at which any such purchase by Licensee shall be effected shall be determined pursuant to Article 15. The Licensee’s right to purchase any part of Government’s Production Share should not be used in such a manner as to leave Government with only a small volume of production that is unnecessarily difficult and expensive to dispose of.

17.3 Not less than twelve (12) Calendar Months prior to the commencement of Commercial Production from any Development Area, Licensee shall submit to the Government for approval proposed procedures and related operating regulations and financial terms covering the scheduling storage and lifting of Crude Oil from each such Development Area.
The procedures, regulations and terms shall comprehend the subjects necessary to efficient and equitable operations including, but not limited to: rights of Parties, notification time, maximum and minimum quantities, duration of storage, scheduling, conservation, spillage, liabilities of the Parties and penalties for over and under-lifting safety and emergency procedures. To the extent that such procedures, regulations and terms are consistent with generally accepted practices in the International Petroleum Industry, the Government may not unreasonably withhold such approval.

17.4 The Parties shall consult together regularly in order to establish a provisional collection programme. The Parties shall draw up, before the commencement of any commercial production in the Production Licence, a collection procedure laying down the methods for applying the present Article.
ARTICLE 18

Domestic Requirements

18.1 Out of the total quantity of Crude Oil production to which the Licensee is entitled in each Calendar Quarter, the Government may elect to take a quantity of Crude Oil, of the gravity, grade and quality of its choice, that the Government requires to satisfy the requirements of internal consumption in Uganda for such Calendar Year. The Government shall reimburse the Licensee for such quantity in United States Dollars at the price as calculated pursuant to paragraph 15.1 hereof within thirty (30) days after the end of the Calendar Month in which such delivery takes place, unless otherwise agreed between the parties. The maximum quantity of Crude Oil that the Government may take to satisfy the internal consumption requirements of the country shall be calculated by multiplying the total quantity of Crude Oil produced from the Contract Area during the period under consideration, less consumption of Crude Oil incidental to Petroleum Operations, by a fraction, the numerator of which is the internal consumption requirements of Uganda during the period, and the denominator of which is the volume of Crude Oil produced by Uganda by all Licensees (including Licensee). Any Crude Oil production dedicated to an early production scheme in any such Calendar year pursuant to paragraph 7.4 shall be deducted from the maximum quantity so determined for such Calendar Year.

18.2 If the Government elects to exercise its rights under paragraph 18.1, it shall notify Licensee in writing not less than ninety (90) days prior to the commencement of each six (6) Calendar Months of each Calendar Year specifying the quantity, and designating the grade and quality, that it elects to take in kind based upon the production forecasts and annual and quarterly estimates, furnished to the Government pursuant to paragraphs 7.9 and 15.5. Any adjusting payments or refunds shall be made within ninety (90) days of the end of each Calendar Year on the basis of actual quantities.
ARTICLE 19

Natural Gas

19.1 Licensee shall have the right to use Associated Gas for Petroleum Operations, including, but not limited to, reinjection for pressure maintenance, and improving the recovery of Petroleum, power generation and recycling operations. The quantities of Associated Gas used in this way shall not be subjected to any tax, fee or levy of any kind.

19.2 Where Non-associated Gas has been discovered in the Contract Area and Licensee has not pursuant to paragraph 7.2 given in respect of the Discovery a notice to the Commissioner for the purpose of Section 18(1)(a) of the Act, the Parties shall, unless the provisions of Section 18(1)(b) of the Act are otherwise applicable, as soon as possible after completion by Licensee of an appraisal programme, or sooner if so agreed, meet together with a view to reaching an agreement on the development, production, processing and sale of such gas.

19.3 Associated Gas which is not used in Petroleum Operations, and the processing and utilisation of which, in the reasonable opinion of Licensee is not economical, shall be returned to the subsurface structure, or may be flared with the consent of the Government, which consent shall not be unreasonably withheld or delayed. In the event that Licensee chooses to process and sell Associated Gas, Licensee shall notify the Government of the same and upon such notification, the Government and Licensee shall, as soon as practicable thereafter, meet together with a view to reaching an agreement on the processing and sale of such gas. In the event Licensee chooses not to process and sell Associated Gas, the Government may elect to offtake at the outlet flange of the gas-oil separator and use such Associated Gas which is not required for Petroleum Operations, in which event, Licensee may flare such gas until such time as the facilities are in place to enable the Government to take delivery thereof. There shall be no charge to the Government for such Associated Gas, provided that the cost to gather such Associated Gas at the point of being flared and to process and utilize it shall be for the account of the Government.
19.4 The value to be attributed to Natural Gas shall:

19.4.1 for arm’s length sales to third parties, be equal to the net realised price obtained for such Natural Gas at the Delivery Point;

19.4.2 for sales other than at arm’s length to third parties, be determined by agreement between the Government and Licensee, provided, however, that such price or value shall reflect the following:

(i) the quantity and quality of the Natural Gas;

(ii) the price at which arms length sales of Natural Gas from other sources in Uganda, if any, are then being made;

(iii) the price at which arms length sales, if any, of Natural Gas imported into Uganda are being made;

(iv) the purpose for which the Natural Gas is to be used; and

(v) the international market price of competing or alternative fuels or feedstocks.

19.4.3 Arm’s length third party sales shall not include sales to Affiliated Companies of Licensee or to the Government, any Ugandan public authority or any other entity controlled directly or indirectly by the Government.
20.1 In procurement, Licensee shall give preference to goods which are produced or available in Uganda and services which are rendered by Ugandan citizens and companies unless such goods and services are offered on terms which are not equal to or better than imported goods and services with regard to quality, price and availability at the time and in the quantities required.

20.2 The Licensee shall establish appropriate procedures, including tender procedures, for the acquisition of goods and services which shall ensure that the suppliers and Sub-Contractors in Uganda are given adequate opportunity to compete for the supply of goods and services. The tender procedures shall include, inter alia, the financial amounts or value of contracts which will be awarded on the basis of selective bidding or open competitive bidding, the procedure for such bidding, and the exception to bidding in cases of emergency, and shall be subject to the approval of the Advisory Committee.

20.3 Within sixty (60) days after the end of each Calendar Year, the Licensee shall provide the Government with a report outlining its achievements in utilising Ugandan goods and services during that Calendar Year.

20.4 Goods shall include equipment, materials and supplies.
ARTICLE 21

Training and Employment

21.1 Licensee agrees to train and employ suitably qualified Ugandan citizens in its Petroleum Operations and, following the Effective Date, to undertake the schooling and training of Ugandan citizens for staff positions, including administrative and executive management positions. Licensee will also require its sublicensees to do the same. Licensee undertakes to gradually replace its expatriate staff with suitably qualified and experienced Ugandan citizens as are then available but, if the Licensee satisfies the Advisory Committee that no suitably qualified and experienced Ugandan citizens are available who are capable of filling key senior management or technical position, Licensee shall employ expatriate staff in such positions. An annual programme for training and phasing in of Ugandan citizens shall be established by Licensee and shall be submitted for approval to the Advisory Committee, along with the annual Work Programmes and Budgets referred to in Article 6. Within thirty (30) days of the end of each Calendar Year, Licensee shall submit a written report to the Government describing the number of personnel employed, their nationality, their positions and the status of training programmes for Ugandan citizens.

21.2 Licensee shall also be required to establish an annual programme, satisfactory to the Government, to train personnel of the Government to undertake skilled and technical jobs in Petroleum Operations.

21.3 Licensee shall deposit with government, or its Nominee, on the Effective Date and each anniversary of the Effective Date thereafter, the following amounts for training of Government personnel selected by the Government and other associated costs for each Licence for the periods specified below:

- **Exploration Period**: US $ 100,000 per 6 months.
- **Development Period**: US$ 150,000 per 12 months.
- Following commencement of production **US $ 300,000 per 12 months.**

21.4 Subject to the provisions of paragraph 21.1, Licensee shall be free to employ foreign nationals to the extent that suitably qualified and experienced Ugandan nationals cannot be found to fill a position.

Upon application in the prescribed manner by Licensee, the Government shall expeditiously provide the necessary work permits and other approvals required for the employment and residence of expatriate personnel and their families in Uganda by Licensee or its sublicensees for the purposes of this Agreement.
ARTICLE 22
Title to Assets

22.1 All land shall become the property of the Government as soon as it is acquired by the Licensee, subject to its continued use rent-free (save in respect of surface rentals payable pursuant to Article 29) by Licensee until the date upon which this Agreement is terminated.

22.2 All equipment and other assets, whether fixed or movable, acquired and owned by Licensee for use in the Petroleum Operations hereunder shall become the property of the Government (or the Nominee of the Government), if the Government so desires, free from all mortgages and other encumbrances upon the earlier of the date upon which:

(i) such equipment and assets have been fully depreciated for Income Tax purposes, or the costs thereof have otherwise been fully recovered, pursuant to Article 12 hereof; or

(ii) this Agreement is terminated.

22.3 Licensee shall have unlimited and exclusive use of such equipment and assets where ownership thereof is transferred pursuant to paragraph 22.2 (i) and shall not be obligated to make any payment for the use of the same during the term of this Agreement. Licensee, so long as such equipment and assets are used exclusively for Petroleum Operations and are in its custody, shall be liable to keep the same in good repair and working order, normal wear and tear expected.

22.4 The provisions of this Article shall not apply to assets and equipment used in the Petroleum Operations and owned by third parties, which assets may be freely exported from Uganda.
ARTICLE 23

Foreign Exchange Control

Licensee shall comply with the procedures and formalities required by the laws and regulations relating to foreign exchange in force from time to time in Uganda.
ARTICLE 24
Assignment

24.1 Licensee (which for the purposes of this Article shall include any person or entity comprising Licensee) may not assign to any person, Affiliated Company, firm or corporation not party hereto, in whole or in part, any of its rights, privileges, duties or obligations under this Agreement without the prior written consent of the Minister.

24.2 In the event that Licensee wishes to assign, in whole or in part, any of its rights, privileges, duties or obligations hereunder or proposes a change of Operatorship as aforesaid, the written consent thereto of the Minister shall not be unreasonably withheld or delayed.

24.3 Notwithstanding the provisions of paragraph 24.1, if Licensee assigns in whole or in part to any Affiliated Company Licensee, as assignor and assignee, shall be fully jointly and severally liable for the performance of all rights, duties and obligations under this Agreement and any related Licences and shall be fully liable for the performance of any such assignee unless the Parties otherwise agree.

24.4 In the case of an assignment to a non-Affiliated Company, the assigning party shall provide to the Government an unconditional undertaking by the assignee to assume all obligations of Licensee under this Agreement, including a Performance Bond, substantially in the form set forth in “Annex D-I”.

24.5 The application for assignment shall be made by the Licensee in accordance with the Act and shall give full information on the proposed assignee as required in respect of an applicant for an Exploration Licence and such additional information as the Minister may require.

24.6 Upon assignment of its interest in this Agreement, the assignor shall be fully released and discharged from its obligations hereunder to the extent that such obligations are assumed by the assignee.

24.7 Any transfer or assignment of interest shall attract a capital gains tax in accordance with the law.
ARTICLE 25

Danger to Persons, Property or Environment

25.1 If any works or installations erected by Licensee or any operations conducted by Licensee endanger or may endanger persons or third party property or cause pollution or harm wildlife or the environment to a degree unacceptable to Government in accordance with international environmental standards and local circumstances, the Licensee shall take appropriate remedial measures approved by Government within a reasonable period and to repair as far as it is reasonably possible any damage to the environment so caused. If, and to the extent necessary for this purpose, Licensee shall discontinue Petroleum Operations in whole or in part until Licensee has taken such remedial measures or has repaired any damage. In the event that Licensee fails to take the appropriate remedial measures within a reasonable time period, the Government may, after consultation with Licensee, carry out such remedial measures for Licensee’s account.

25.2 Before commencing any works or operations hereunder, or recommencing any works or operations which have been discontinued for more than three (3) Calendar Months, in any part of the Contract Area which includes the area of a National Park or Game Reserve (as so designated under applicable Uganda law), Licensee shall consult with the Government regarding the nature and extent of the work or operations to be conducted in such areas taking into consideration Good Oilfield Practices. In carrying out such works and operations in such areas, Licensee shall give due regard to the importance of minimising the damage and disturbance to the environment and wildlife and, where any damage or disturbance would result, shall take all reasonable steps to limit the extent of the damage or disturbance so caused.

25.3 In the event of protest from responsible concerned third parties within or outside Uganda regarding the conduct of Petroleum Operations in any National Park or Game Reserve and the consequent effects upon the environment or wildlife, the Government and Licensee shall meet to determine what if any action should be taken.
25.4 The Licensee shall:

(a) conduct the Petroleum Operations in a manner likely to promote the conversation of the natural resources of Uganda and the protection of its environment;

(b) employ the most advanced techniques for the prevention of environmental damage which may be caused by Petroleum Operations, and for the minimisation of the effect of Petroleum Operations on adjoining or neighbouring lands; and

(c) Implement the proposals contained in its Development Plan regarding the prevention of pollution and take any further action as may be necessary for the treatment of wastes, the safeguarding of natural resources and the progressive reclamation and rehabilitation of lands disturbed by petroleum production.

25.5 The Licensee undertakes, for the purposes of this Agreement, to take all necessary and adequate steps:

(a) to ensure adequate compensation for injury to persons or damage to property caused by the effect of the Petroleum Operations; and

(b) to avoid irremediable environmental damage to the Contract Area and adjoining or neighbouring lands.

25.6 If the Licensee fails to comply with the terms of sub-paragraph 25.5(b) or contravenes any law on the prevention of environmental damage and such failure or contravention results in any environmental damage, the Licensee shall take all the necessary and reasonable measures to remedy such failure or contravention and the effects hereof.

25.7 The measures and methods to be used by the Licensee for purposes of complying with the terms of sub-paragraph 25.5(b) shall be determined in timely consultation with the Minister upon the commencement of Petroleum Operations or whenever there is a significant change in the scope or method of carrying out Petroleum Operations, and the Licensee shall take into account the international standards applicable in similar circumstances and the relevant environmental impact study carried out in accordance with Clause 25.8. The Licensee shall notify the Minister in writing of the nature of the measures and methods finally determined by the Licensee and shall cause such measures and methods to be reviewed from time to time in view of prevailing circumstances, provided however, that any consultations or approval given pursuant to this Agreement shall not be deemed to limit the obligations of the Licensee as provided herein or the right of the Minister to take appropriate regulatory or other action where Petroleum Operations pose a material danger to public health and safety or may result in significant irreversible damage to the environment.
25.8 The Licensee shall cause a consulting firm or individuals of international standing to carry out environmental impact studies (together with the updating of the latter referred to in paragraph 25.11), in order:

(a) to determine the prevailing situation relating to the environment, human beings, wildlife or marine life in the Contract Area and in the adjoining or neighbouring areas at the time of the studies; and

(b) to establish what the effect will be on the environment, human beings, wildlife or marine life in the Contract Area in consequence of the Petroleum Operations to be undertaken under this Agreement, and to submit for consideration by the Parties measures and methods contemplated in paragraph 25.7 for minimising environmental damage and carrying out site restoration in the Contract Area.

25.9 The timing of the above studies shall be determined by the Minister.

25.10 Such studies shall be updated and submitted to the Minister:

(i) with each application for a subsequent Production Licence (such updated study to form part of its Development Plan relating thereto);

(ii) not less than three months prior to the termination of the Exploration Licence; and

(iii) on such other occasion as the Minister or the Commissioner or a government environmental protection agency may request in the light of actual or threatened environmental damage resulting from or relating to the Petroleum Operations.
25.11 The studies mentioned in paragraph 25.8 shall contain proposed environmental guidelines to be followed in order to avoid irremediable environmental damage and shall include, but not be limited to:

(a) access cutting;
(b) clearing and timber salvage;
(c) wildlife and habitat protection;
(d) fuel storage and handling;
(e) use of explosives;
(f) camps and staging areas;
(g) liquid and solid waste disposal;
(h) cultural and archaeological sites;
(i) selection of drilling sites;
(j) terrain stabilisation;
(k) protection of freshwater horizons;
(l) blowout prevention plan;
(m) flaring during completion and testing of gas and oil wells;
(n) well abandonment;
(o) rig dismantling and site completion;
(p) reclamation for abandonment; and
(q) noise control.
25.12 In addition to the studies mentioned in paragraph 25.8, the Licensee shall include in each Work Programme and Budget to be submitted annually to the Minister in accordance with Article 6, and in any amendment thereto, an environmental impact statement relating to the work to be undertaken as provided in that document and reporting on work undertaken in accordance with the preceding Work Programme. The Licensee will also, on a regular basis report how environmental matters are being addressed with respect to the Environmental Impact Statement and any new aspects that come up during the operations that may not have been envisaged at the time of the Environmental Impact Assessment.

25.13 The Licensee shall ensure that:

(a) Petroleum Operations are carried out in an environmentally acceptable and safe manner consistent with good international industry practice and applicable laws and that such operations are properly monitored;

(b) the pertinent completed environmental impact studies are made available to its employees and to its sublicensees to develop adequate and proper awareness of the measures and methods of environmental protection to be used in carrying out the Petroleum Operations; and

(c) any agreement entered into between the Licensee and its sublicensees relating to the Petroleum Operations shall include the terms set out in this Agreement and any established measures and methods for the implementation of the Licensee’s obligation in relation to the environment under this Agreement.

25.14 The Licensee shall, before carrying out any drilling, prepare and submit for review by the Minister an oil spill and fire contingency plan designed to achieve rapid and effective emergency response in the event of an oil spill or fire.
25.15 In the event of:

(a) an emergency or accident arising from Petroleum Operations affecting the environment, the Licensee shall forthwith notify the Minister accordingly;

(b) any fire or oil spill, the Licensee shall promptly implement the relevant contingency plan; and

(c) any other emergency or accident arising from the Petroleum Operations affecting the environment, the Licensee shall take such action as may be prudent and necessary in accordance with good international petroleum industry practice in such circumstances.

25.16 If the Licensee fails to comply with any terms contained in this Article within a period determined by the Minister under any such terms, the Minister may, after giving the Licensee reasonable notice, take any action which may be necessary to ensure compliance with such terms, and recover, immediately after having taken such action, all expenditure incurred in connection with such action from the Licensee together with such interest as may be determined in accordance with Section 1.4(c) of Annex C to this Agreement.

25.17 The Licensee shall on the expiration or termination of this Agreement or on relinquishment of part of the Contract Area:

(a) remove all equipment and installation from the Contract Area or relinquish area in a manner agreed with the Minister in terms of an abandonment or decommissioning plan;

(b) take all action necessary to prevent hazards to human life or to property of others or the environment; and

(c) take all action necessary in accordance with Good Oilfield Practice to reclaim and rehabilitate all lands disturbed by Petroleum development and production.
ARTICLE 26

Arbitration

26.1 Subject to Article 14.2, any dispute arising under the Agreement which cannot be settled amicably within sixty (60) days, shall be referred to Arbitration in accordance with the United Nations Commission for International Trade Law (UNCITRAL) Arbitration Rules. The arbitration shall be conducted by three (3) arbitrators appointed in accordance with the said Rules. The said arbitration shall take place in London, England. Judgement on the award rendered may be entered in any court having jurisdiction or application may be made in such court for a judicial acceptance of the award and an order of enforcement, as the case may be. The Arbitration award shall be final and binding on the Parties to this Agreement.

26.2 Any matter in dispute between the Government and Licensee arising under paragraphs 5.4, 7.6, 10.1.3, 10.1.4, 10.2.3, 15.2 and 33.2 may, at the election of either of such parties by written notice to the other, be referred for determination by a sole expert to be appointed by agreement between the Government and Licensee. If the Government and Licensee fail to appoint the expert within sixty (60) days after receipt of such written notice, either of such parties may have such expert appointed by the then President of the Institute of Petroleum (London). If the aforesaid President shall be disqualified to act by reason of professional, personal or social interest or contract with the parties in dispute or their Affiliated Companies, the next highest officer for the time being of said Institute of Petroleum, who is not disqualified shall act in lieu of said President. No person shall be appointed to act as an expert under this section:

(i) unless he shall be qualified by education, experience and training to determine the subject matter in dispute; or

(ii) if at the time of his appointment or at any time before he makes his determination under such an appointment, he has or may have some interest or duty which conflicts or may conflict with his function under such appointment.

The expert shall render his decision within sixty (60) days after the date of this appointment, unless the Parties otherwise agree. In rendering his decision, the expert shall do so within the context of the provisions of this Agreement, the Act and the standards of Good Oilfield Practices. The decision of the expert shall be final and binding on both Licensee and the Government. The expert’s fees and expenses, and the costs associated with an appointment, if any, made by the President of the Institute of Petroleum (or the next highest officer thereof), shall be allocated to the Parties in dispute in such manner as the expert may determine.
ARTICLE 27

Insurance and Indemnification

27.1 To ensure that Licensee its Contractors and Sub-contractors meet their obligations to third parties, or to the Government, that might arise in the event of damage, loss or injury (including environmental damage or injury, removal of wrecks and cleaning up caused by accidents) caused by Petroleum Operations, Licensee shall maintain in force an insurance policy through an international insurance company of good financial standing covering the activities of itself and its contractors and sub-contractors, sublicensees and the employees of all such parties. Such insurance policy shall waive subrogation against the Government, and shall provide that it may not be cancelled except upon thirty (30) days' prior written notice to the Government. A certificate giving evidence of such insurance policy shall be furnished to the Government within ninety (90) days of the Effective Date. The limits, coverage, deductibles and other terms shall be consistent with accepted practices in the international petroleum industry. In the event that no response is received by Licensee from the Government within fifteen (15) days of the submission by Licensee of such insurance terms to the Government for approval, such approval shall be deemed granted. To the extent that such third party liability insurance is unavailable or is not obtained, or does not cover part or all of any claims for damage, loss or injury caused by or resulting from Petroleum Operations, Licensee shall remain fully responsible and shall defend, indemnify and hold the Government harmless against all such claims by the Government arising from any such damage, loss or injury.

27.2 Licensee shall indemnify, defend and hold the Government harmless against all third party claims for damage, loss or injury, including, without limitation, claims for loss or damage to property or injury or death to persons, caused by or resulting from any Petroleum Operations conducted by or on behalf of Licensee.
Except as otherwise provided in this Article, each party shall be excused from complying with the terms of this Agreement except for the payment of monies due, for so long as such compliance is prevented or delayed by strikes, wars (declared or undeclared), hostilities, blockade, embargo, unavailability or rationing of supplies, materials and/or equipment imposed by law, decree, regulation and/or instruction at the insistence or request of any Government authority, insurrection, civil disorder, terrorist acts, sabotage, quarantine restrictions, epidemics, accidents, riots, labour disturbance, any act or failure to act of a Governmental agency or local body, acts of God, perils of navigation, storm, flood, earthquake, lightning and other exceptional adverse weather conditions, explosion, fire or by any act or cause that is reasonably beyond the control of such party, such causes, whether similar or dissimilar to the events listed above, being herein called “Force Majeure”. In the event that either party hereto is rendered unable, wholly or in part, by any of these causes to carry out its obligations under this agreement, such party shall give notice and details of Force Majeure in writing to other Party within seven (7) days after its occurrence. In such cases, the obligations of the Party giving the notice shall be suspended during the continuance of any inability so caused. Such Party shall do all reasonably within its power to remove such cause. If through Force Majeure, the fulfilment by the Parties of any of the obligations under this Agreement shall be delayed, the period of such delay, shall be added to the time allowed under this Agreement for the fulfilment of such obligations or the exercise of any right dependent thereon.
ARTICLE 29
Annual Surface Rentals

29.1 Licensee shall pay a charge in respect of surface rentals for the area subject to a License hereunder as follows:

(a) annual surface rental for the area which remains subject to the Exploration Licence:
    US$7.50 per square kilometre or part thereof; and

(b) Surface rental in respect of a Development Area subject to a Production Licence:
    US$500.00 per square kilometre or part thereof.

29.2 Annual surface rentals payable pursuant to this Article shall be paid to the Government in advance and without demand commencing with the date on which the Licence is granted. No rebates of surface rentals shall be made by the Government in respect of any area which ceases to be subject to a Licence mid-year.

29.3 Annual surface rentals do not replace other charges that may be levied for entry into parts of the Licence Area arising out of specialized land use, such as national parks or nature reserves, for purposes other than Petroleum Operations.
If the circumstance or circumstances that would result in termination under paragraph 30.2.3 and 30.2.4 are remedied by Licensee within the sixty (60) day period following the notice of termination as aforesaid or where the breach cannot be remedied within a sixty (60) day period, Licensee has commenced the works or steps necessary to remedy such breach during such period and is diligently continuing such works thereafter, or, where it is otherwise impossible to remedy such breach, adequate compensation has been offered to and accepted by the Government in respect thereof within such sixty (60) day period, such termination shall not become effective.

If the circumstance or circumstances that would otherwise result in termination under paragraph 30.2.3 or 30.2.4 are the result of Force Majeure, then termination shall not take place so long as such Force Majeure continues and for such period thereafter as provided in Article 28.

Where two or more persons constitute Licensee, this Agreement may not be terminated:

30.6.1 pursuant to paragraphs 30.2.1, 30.2.2 or 30.2.3 above where, in respect of a liability which is a several liability, one or some only of the persons constituting Licensee is in breach of the provisions hereof or has so failed in compliance provided that the Petroleum Operations continue in accordance with the provisions of this Agreement.; or

30.6.2 pursuant to paragraph 30.2.4 above where the bankruptcy, liquidation or composition relates to one or some only of the persons constituting Licensee, provided that the Petroleum Operations continue in accordance with the provisions of this Agreement.

In any case falling under paragraph 30.6 above, the Government, subject to paragraphs 30.3, 30.4 and 30.5 may, upon giving thirty (30) days written notice of its intention to do so, terminate the Participating Interest or Joint Venture Interest herein, and in any related Licences, or the person or persons in breach, or which have failed in compliance, or, as the case may be, have become bankrupt, gone into liquidation or made a composition as aforesaid (“the Defaulting Party”) but nothing in this paragraph shall affect the rights and obligations of any other person who constitutes Licensee which shall remain in full force and effect.
In such event, the Defaulting Party shall forthwith assign, unconditionally and without consideration, to the other persons constituting Licensee and, in respect of any Licence in which the Nominee of the government has a Joint Venture Interest, to the Nominee of the Government its entire Participating or Joint Venture Interest under this Agreement and any related Licences.

Such assignment will be made in undivided proportionate shares corresponding to the undivided proportionate shares in which such other persons and, in respect of any Licence in which the Nominee has a Joint Venture Interest, the Nominee hold Participating or Joint Venture Interests in the subsisting Licences.

30.8 On termination of this Agreement and any related Licences or of an interest therein, the rights thereunder of Licensee or the Defaulting Party, as the case may be, shall cease but the termination shall not affect any liability incurred before the termination, and any legal proceedings that might have been commenced or continued against Licensee or such Defaulting Party may be commenced or continued against him.
ARTICLE 32
Notices

All notices and other communications required or permitted hereunder or any notices that one Party may desire to give to the other Party shall be in writing in the English language and deemed to have been properly delivered if personally handed to an authorised representative of the Party for whom intended or sent by registered airmail or by cable, or telefax, except as otherwise provided herein, at or to the address of such Party for whom intended as indicated below, or such other addresses as any Party may from time to time designate by notice in writing to the other Party:

ARTICLE 33
Applicable Law

33.1 This agreement shall be governed by, interpreted and construed in accordance with the laws of Uganda.

33.2 The Parties agree that the terms and conditions of this Agreement are based on the existing laws of the Republic of Uganda and the terms contained in this Agreement. If after the Effective Date, there is any change in any law in Uganda dealing with income tax which substantially and adversely alters the economic benefits accruing to the Licensee, the Licensee may within five (5) calendar years from the date on which any such change has legal effect, notify Government accordingly and thereafter the Parties shall negotiate in good faith to agree upon the effect of the changes in law and the necessary adjustments and modifications to the Agreement in order to maintain the economic benefit of the Licensee which existed at the Effective Date of this Agreement PROVIDED that the Licensee shall comply with the requirement of the law and then notify the Government about the substantial and adverse effect of the change in the law.

33.3 In the event that within ninety (90) days of receipt of notification, the parties are unable to agree that the Licensee’s economic benefits have been substantially and adversely affected and/or are unable to agree on the modifications required to maintain the economic benefits of the Licensee which prevailed at the Effective Date, then either Party may refer to the matter for expert determination pursuant to paragraph 26.2.

33.4 For the avoidance of doubt, the provisions of paragraph 33.2 above are intended for maintaining the original economic benefits of the Agreement and shall not prevent the Government from enacting laws intended to levy additional profit tax on additional profits.

33.5 For purposes of this Article, the term “economic benefits” means the project’s Net Present Value (NPV) for the Licensee.
ARTICLE 34

Entire Agreement and Amendments

This Agreement embodies the entire agreement and understanding between Licensee and the Government relative to the subject matter hereof, and supersedes and replaces any provisions on the same subject in any other agreement between the Parties, whether written or oral prior to the date of this Agreement. This Agreement may not be amended, modified, varied or supplemented except by an instrument in writing signed by Licensee and the Government.
ARTICLE 37

Disclaimer

37.1 Any reviews, provision of data or requests for information, data or otherwise from the Licensee by the Government or approvals by the Government or its Nominee under this Agreement is solely for the information of the Government and its satisfaction that the requirements of the Government as set forth herein have been satisfied by the Licensee. By making such reviews, requests or approvals, the Government makes no representation and the Licensee shall in no way so represent to third parties that such reviews, requests, approvals or otherwise are proof of the economic and technical viability of the Petroleum Operations to be undertaken by the Licensee.

37.2 The Government shall not be liable to the Licensee for and the Licensee shall defend and indemnify the Government from any claim, cost, loss, damage or liability arising out of any contrary representation by the Licensee.

37.3 The Licensee is solely responsible for the economic and technical feasibility, reliability or in case of discovery, realisation of the viability of the Petroleum production and production activities.
IN WITNESS WHEREOF, the Parties hereto have caused this Agreement prepared in the Republic of Uganda in the English language to be executed in eight (8) originals by their respective duly authorised representatives as of the day and year first above written.

ANNEX A

Description the Contract Area 1

Contract Area 1 comprises 3066 square kilometers, is of polygonal shape and is bounded along its outer margin by a continuous line which runs through the following geographical points and co-ordinates

From the Uganda / Democratic Republic of Congo border due at 02°10'N, 31°18'E
and thence to 02°10'N, 31°20'E
and thence to 02°15'N, 31°20'E
and thence to 02°15'N, 31°25'E
and thence to 02°25'N, 31°25'E
and thence to 02°25'N, 31°35'E
and thence to 02°10'N, 31°35'E
and thence to 02°10'N, 31°50'E
and thence to 02°20'N, 31°50'E
and thence to 02°20'N, 31°45'E
and thence to 02°30'N, 31°45'E
and thence to 02°30'N, 31°40'E
and thence to 02°45'N, 31°40'E
and thence to 02°45'N, 31°05'E
and thence to 02°40'N, 31°05'E
and thence to 02°40'N, 31°15'E
and thence to 02°15'N, 31°15'E
and thence through the Uganda/Democratic Republic of Congo border to 02°10'N, 31°18'E

ANNEX B-1

Form of Exploration Licence

I, _____________________, Minister of Energy and Mineral Development, pursuant to the powers conferred upon me by Section 9 of the Petroleum (Exploration and Production) Act chapter 150 under the Laws of Uganda 2000 (“the Act”) hereby grant to ____________, a company duly organised and existing under the laws of __________________, (“Licensee”) this Exploration Licence to conduct Exploration Operations within and with respect to the Contract Area described in the Production Sharing Agreement entered into by and between the Government of the Republic of Uganda and Licensee, dated ___, 201___ (“the Agreement”), hereby conferring upon Licensee the exclusive right to explore for petroleum in the said Contract Area and to carry on such operations and execute such works as necessary for that purpose for a term of [_________] years from the effective date hereof [subject to renewal] in accordance with the provisions of the Act and the terms and conditions of said Agreement, which forms an integral part of this Licence.

IN WITNESS WHEREOF, I have granted the licence aforesaid with effect from ________, 201__ and set out my hand and seal this _____ day of _________ 201__

Minister of Energy and Mineral Development.

1.1 Definitions

For the purposes of this Accounting and Financial Procedure the terms used herein which are defined in the Agreement shall have the same meaning when used in this Accounting and Financial Procedure.

1.2 Statements required to be submitted by Licensee

(a) Within sixty (60) days of the Effective Date, Licensee shall submit to and discuss with the Government a proposed outline of charts of accounts, operating records and reports, which outline shall be in accordance with generally accepted and recognized accounting systems and consistent and normal practice of the international petroleum industry and the requirements of this Agreement. Within sixty (60) days of receiving the above submission, the Government shall either indicate its approval of the proposal or may request revisions to the proposal to the extent that such outline is not in accordance with generally accepted and recognized accounting systems and consistent with the normal practices of the international petroleum industry and the requirements of this Agreement. In the event that revisions are so requested by the Government, Licensee and the Government shall within ninety (90) days after the Effective Date of the Agreement agree on the outline charts of accounts, operating records and reports which shall describe the basis of the accounting system and procedures to be developed and used under the Agreement. Following such agreement, Licensee shall expeditiously prepare and provide the Government with formal copies of the comprehensive charts of accounts related to the accounting, recording and reporting functions and allow the Government to examine Licensee’s manuals and to review procedures which are, and shall be, observed under the Agreement.

(b) All reports, books, accounts and records of Licensee will be prepared and maintained in accordance with this Agreement and, where there are no relevant provisions in the Agreement, in accordance with normal practices in the international petroleum industry and generally accepted and recognized accounting standards.

(c) All accounts, books, records and reports of Licensee required hereunder shall be maintained at Licensee’s business office in the Republic of Uganda and will be
available for the inspection and use of the Government and its representatives in carrying out its supervisory function under this Agreement.

(d) The Licensee shall report to Government on a quarterly basis, all expenditures, production, prices, sales receipts, cost recovery and production sharing related to Petroleum Operations in the Licence area.

1.3 Language and Units of Account

(a) Accounts shall be maintained in Uganda Shillings and in United States Dollars. However, the United States Dollars accounts will prevail in case of conflict. Metric units and Barrels shall be employed for measurements required under this Annex. The language employed shall be English. Where necessary for clarification, Licensee may also maintain accounts and records in other languages, units of measurement and currencies.

(b) It is the intent of this Accounting and Financial Procedure that neither the Government nor Licensee should experience an exchange gain or loss at the expense of, or to the benefit of, the other. However, any gain or loss resulting from the exchange of currency, will be credited or charged to the accounts.

(i) Amounts received and costs and expenditures made in Uganda Shillings, United States Dollars or any other currency shall be converted into Uganda Shillings or United States Dollars, as the case may be, on the basis of the average of the buying and selling exchange rates between the currencies in question as published by Bank of Uganda, prevailing on the last Business Day of the Calendar Month preceding the Calendar Month in which such amounts are received and costs and expenditures are paid.

(ii) In the event of an increase or decrease, one time or accumulative, of ten percent (10%) or more in the rates of exchange between the Uganda Shilling, the United States Dollar or the currency in question, during any given Calendar Month, the following rates will be used:

(1) For the period from the first of the Calendar Month to the day when such increase or decrease is first reached, the average of the official buying and selling exchange rates between the United States Dollar, Uganda Shilling or the currency in question as issued on the last day of the previous Calendar Month.

(2) For the period from the day on which such increase or decrease is first reached to the end of the Calendar Month, the average of the official buying and selling exchange rates between the United
States Dollar, the Uganda Shilling or the currency in question as issued on the day on which such increase or decrease is reached.

(3) A record of the exchange rates used in converting Uganda Shillings, United States Dollars or any other currency hereunder shall be maintained by Licensee.

1.4 Payments

(a) All payments between the Parties shall, unless otherwise agreed, be in United States Dollars and through a bank designated by each receiving party. Payments between the Parties may be effected by way of set-off between mutual and undisputed liabilities as and when such liabilities accrue.

(b) Discharge of Licensee’s obligation with respect to Income Tax, the Nominee of the Government’s Participation Share of Production and the Government’s Production Share shall be made in accordance with the Agreement.

(c) All sums due by one party to the other under the Agreement during any Calendar Month shall, for each day such sums are overdue during such month, bear interest compounded daily at an annual rate equal to the average London Interbank Offered Rate for six (6) months as quoted at 11.00 a.m. London time on the first business day of such month by the London Office of Citibank N.A. plus five (5) percentage points.
1.5 Audit and Inspection Rights of Government

(a) The Government shall have the right, upon fifteen (15) days’ prior written notice to Licensee, to audit directly or through an independent accountant, at its own cost, Licensees’ accounts and records maintained in relation to the Petroleum Operations carried out hereunder with respect to the Licence Period within twenty four (24) Calendar Months after the closure of the subject year’s accounts. Notice of any exception to the Licensee’s accounts of any Calendar Year must be notified to Licensee within thirty (30) Calendar Months of the closure of the subject year’s accounts.

For purposes of auditing, the Government may examine and verify at reasonable times all charges and credits relating to the Petroleum Operations such as books of account, accounting entries, material records and inventories, vouchers, payrolls, invoices and any other documents, correspondence and records necessary to audit and verify the charges and credits. Furthermore, the auditors shall have the right in connection with such audit to visit and inspect at reasonable times all sites, plants, facilities, warehouses and offices of Licensee directly or indirectly serving the Petroleum Operations including visiting personnel associated with those operations.

If the Government desires verification of charges representing a proportionate share in the cost of Licensee’s activities other than those carried out hereunder, it may require such verification to the extent Licensee is able to present the required information without infringing the confidential or proprietary nature of such information. In the event that such infringement would occur, the Government may require Licensee (at Licensee’s expense) to obtain an audit certificate from an independent external auditor of international standing (selected by Licensee and acceptable to the Government) verifying such charge(s). If Government desires verification of charges from Affiliated Companies of Licensee, Licensee shall, upon the Government’s request and at Licensee’s expense, obtain an audit certification to such effect from the statutory auditors of the Affiliate concerned attesting that such rates do not include a profit element and have been consistently and reasonably applied. However, the percentage rates to be applied pursuant to paragraph 2.5(b) of this Accounting and Financial Procedure will not be subject to audit.
(b) The Government shall make every reasonable effort to conduct audits in a manner, which will result in the minimum of inconvenience to Licensee. Licensee shall make every reasonable effort to co-operate with the Government and its statutory auditors or the independent auditors, as the case may be, will provide reasonable facilities and assistance. Subject to the provisions of paragraph 1.5(c) hereunder, only one audit may be carried out by the Government in respect of the accounts for any single Calendar Year.

(c) Any Government audit shall be completed within (6) Calendar Months of its commencement. At the conclusion of each audit, the Government and Licensee shall endeavour to settle outstanding matters and a written report will be circulated to all parties within three (3) Calendar Months of the conclusion of each audit. The report shall include all claims arising from such audit together with comments pertinent to the operation of the accounts and records. Licensee shall reply to the report in writing as soon as possible and in any event not later than three (3) Calendar Months following receipt of the report. Should the Government consider that the report or reply requires further investigation of any items therein, the Government shall have the right to conduct further investigations in relation to such item notwithstanding that the said period of twenty-four (24) Months may have expired.

Such further investigation shall be commenced within thirty (30) days and be concluded within sixty (60) days of the receipt of such reply and the report related to such further investigation shall be circulated within ninety (90) days of the conclusion of such further investigation. All adjustments resulting from an audit, as agreed between Licensee and the Government, shall be made promptly by Licensee and be reported to the Government. Any unresolved dispute arising in connection with an audit shall be referred to the Advisory Committee and if not resolved thereby shall be referred for expert determination pursuant to paragraph 26 of the Agreement.

(d) Without prejudice to the finality of matters as described in subsection 1.5(a), all documents referred to in that subsection shall be maintained by the Licensee and made available for inspection by Government for five (5) Calendar Years following their date of issue.

(e) All information obtained by the Government pursuant to the provisions of this paragraph 1.5 shall be subject to the confidentiality requirements specified in paragraphs 36.1 and 36.2 of this Agreement.

1.6 Accrual Basis

All books, accounts and records shall be prepared on an accrual basis. Contract Revenues shall be attributed to the accounting period in which they are earned, and costs and expenses to the account period in which they are incurred, without the need to
Distinguish whether cash is received or disbursed in connection with a particular transaction. Costs and expenses shall be deemed to have been incurred, in the case of physical items, in the accounting period when Licensee acquires title thereto, and in the case of services, in the accounting period when such services are performed.

1.7 Arms Length Transactions

Except as may be otherwise agreed in writing between the Government and Licensee or as may be provided in Article 13 of the Agreement, all transactions giving rise to revenues, costs or expenses under this Agreement which will be credited or charged to the books, accounts, records and reports prepared, maintained or submitted hereunder shall be conducted at arm’s length or on such a basis as will assure that all such revenues, costs or expenses will not be materially higher or lower, as the case may be, than would result from a transaction conducted at arms length on a competitive basis with third parties.

1.8 Allocation of Shared Costs

To the extent that costs and expenses are incurred by Licensee in respect of activities which would only in part qualify as Contract Expenses hereunder, such costs and expenses shall be allocated to the books, accounts, records and reports maintained hereunder in such a manner as to avoid any duplication of cost, to fairly and equitably reflect the costs attributable to Petroleum Operations carried out hereunder and to exclude any costs and expenses which should otherwise be allocated to those activities which would not constitute Petroleum Operations hereunder.

It is understood, however, that any Exploration or Development and Production Expenditures associated with a unit development involving a Discovery Area, which extends into a neighbouring country shall be allocated on the basis of the petroleum reserves attributable to that portion of the Discovery Area located in each country.
SECTION 2

Classification, Definition and Allocation of Costs and Expenditures

Contract Expenses incurred in connection with Petroleum Operations carried out hereunder shall be classified, defined and allocated as follows:

2.1 Exploration Expenditures are all necessary, appropriate and economical direct and allocated indirect costs incurred in the search for Petroleum and the appraisal of Discoveries in the Contract Area, including:

(a) aerial, geophysical, geochemical, palaeontological, geological, topographical and seismic surveys and studies and their interpretation;

(b) core hole drilling and water well drilling;

(c) labour, materials and services used in drilling wells with the object of finding new Petroleum Reservoirs or for the purpose of appraising the extent of or subsequently producing Petroleum Reservoirs already discovered provided such wells are dry or are otherwise not completed as producing wells;

(d) facilities use solely in support of these purposes including access roads and purchased geological and geophysical information;

(e) a portion of all Service Costs (as hereinafter defined) allocated to Exploration Operations on an equitable basis and consistently applied;

(f) a portion of all General and Administrative Expenses (as hereinafter defined) allocated to Exploration Operations based on projected budget expenditures subject to adjustment on the basis of actual expenditure at the end of the Calendar year concerned; and

(g) any other Contract Expenses incurred prior to the commencement of Commercial Production in a Development Area and not otherwise covered by paragraph 2.2 below subject to paragraph 4.2.
Development and Production Expenditures shall consist of all necessary, appropriate and economical expenditures (other than those referred to in paragraph 2.3) incurred in Development Operations in relation to a Development Area including:

(a) drilling wells which are completed as producing wells and drilling wells for purposes of producing Petroleum Reservoir already discovered providing such wells are completed as producing wells;

(b) completing those wells described in paragraph 2.1(c) by way of installation of casing or equipment or otherwise after a well has been drilled for the purpose of bringing the well into use as a producing well;

(c) the costs of field facilities including field gathering systems, field production and treatment units, wellhead equipment, subsurface equipment, Natural gas separation facilities, enhanced recovery systems, offshore platforms, Petroleum storage facilities in the field and related facilities, and field access roads for production activities;

(d) the costs of transportation facilities installed up to the Delivery Point, including but not limited to pipelines, compressors, and storage facilities;

(e) engineering and design studies for field facilities;

(f) a portion of all Service Costs allocated to the Development Operations on an equitable basis and consistently applied;

(g) a portion of all General and Administrative Expenses allocated to the Development Operations based on projected budget expenditures which will be adjusted to actual expenditures at Calendar Year end; and

(h) any other expenditure incurred in Development Operations prior to the commencement of Commercial Production in a Development Area, other than those incurred in respect of operations carried out beyond the Delivery Point.

Operating Expenses are all necessary, appropriate and economical expenditures incurred in the Petroleum Operations hereunder after the start of the Commercial Production (but including intangible drilling costs such as, but not limited to, labour,
consumable material and services having no salvage value which are incurred in the drilling operations related to the drilling or deepening of producing wells whether incurred before or after the start of Commercial Production) which are other than Exploration Expenditures, Development and Production Expenditures and General and Administrative Expenses and Service Costs otherwise allocated to Exploration Expenditures or Development and Production Expenditures pursuant to subparagraphs 2.1(e) and (f) and 2.2(f) and (g) above; Operating Expenses shall not, however, include tariff charges, if any, imposed by the Pipeline Company associated with the transportation of Petroleum from the Delivery Point to the seaboard terminal point of export.

2.4 Service Costs are all necessary, appropriate and economical direct and indirect expenditures in support of the Petroleum Operations including, but not limited to, warehouse, piers, marine vessels, vehicles, motorised rolling equipment, aircraft, fire and security stations, workshops, water and sewage plants, power plants, housing, community and recreational facilities and furniture, tools and equipment used in these activities. Service Costs in any Calendar Year shall include the total costs incurred in such year to purchase and/or construct said facilities as well as annual costs to maintain and operate the same. All Service Costs will be regularly allocated as specified in subparagraphs 2.1(e), 2.2(f) and 2.3 to Exploration Expenditures, Development Production Expenditures and Operating Expenses.

2.5 General and Administrative Expenses

(a) All main office, field office and associated general and administrative costs incurred in relation to Petroleum Operations, including, but not limited to, supervisory, accounting and employee relations services carried out by Licensee in Uganda.

(b) (i) Licensee’s Affiliated Companies' personnel and service costs (other than those otherwise provided for in paragraph 4.1(e)(ii) of this Annex) incurred in connection with the Petroleum Operations carried out hereunder.

   (i) Reasonable travel expenses of such Affiliated Companies' personnel in the general and administrative category listed in subparagraph (i) above, in connection with the Petroleum Operations carried out hereunder.

(c) All General and Administrative Expenses shall be necessary, appropriate and economical and will be regularly allocated as specified in subsection 2.1(f), 2.2(g) and 2.3 to Exploration Expenditures, Development and Production Expenditures and Operating Expenses.
SECTION 3

Income Tax and Allowable Contract Expenditures

Allowable Contract Expenditures are the recoverable costs as defined in Section 4 of this Annex C.
SECTION 4

Cost, Expenses, Expenditures and Credit of the Licensee

4.1 Costs Recoverable without Further Approval of the Government

Subject to the provisions of Agreement, Licensee shall bear and pay the following costs and expenses in respect of the Petroleum Operations. These costs and expenses will be classified under the headings referred to in paragraph 2 of this Annex. They are recoverable Contract Expenses by Licensee under the Agreement.

(a) **Surface rights**

This covers all direct costs attributable to the acquisition, renewal or relinquishment of surface rights acquired and maintained in force for the Contract Area.

(b) **Labour and Associated Labour Costs**

(i) gross salaries and wages including bonuses and cost of living, housing and other customary allowance afforded to expatriate employees in similar operations elsewhere of Licensee’s employees directly engaged in the Petroleum Operations, irrespective of the location of such employees;

(ii) Licensee’s costs regarding sickness and disability payments applicable to the salaries and wages chargeable under subparagraph (i) above;

(iii) expenses or contributions made pursuant to assessments or obligations imposed under the laws of the Republic of Uganda which are applicable to Licensee’s cost of salaries and wages chargeable under (i) above;

(iv) Licensee’s cost of established plans for employees' life insurance, hospitalisation, pensions, stock purchase and thrift plans.

(v) benefits of a like nature customarily granted to Licensee’s employees;

(vi) reasonable travel and personnel expenses of employees of Licensee and their families including those made for travel and relocation of the expatriate employees assigned to the Republic of Uganda, all of which shall be in accordance with Licensee’s normal practice, provided such is consistent with generally accepted practices in the international petroleum industry; and
(vii) any personal income taxes of the Republic of Uganda incurred by employees of Licensee and paid or reimbursed by Licensee.

(c) Offices, Camps, Warehouses and other facilities

The cost of establishing, maintaining and operating any offices, camps, warehouses, workshops, housing, water systems and other facilities for the purpose of carrying out the Petroleum Operations. The costs of those facilities, which are not used for the exclusive purpose of carrying out the Petroleum Operations, shall be apportioned on a consistent and equitable basis between the Petroleum Operations and the Licensee’s other operations and those of its Affiliates.

(d) Transportation

The cost of transportation of employees, equipment, materials and supplies necessary for the conduct of the Petroleum Operations.

(e) Charges for Services

(i) Third Party Contacts

The actual costs of contracts for technical and other services entered into by Licensee for the Petroleum Operations, made with third parties other than Affiliated Companies of Licensee are recoverable, provided that the prices paid by Licensee are in line with those generally charged by other international or domestic suppliers for comparable work and services.

(ii) Affiliated Companies of Licensee

Without prejudice to the charges to be made in accordance with paragraph 2.5 of this annex, in the case of specific services rendered to the Petroleum Operations under contract with, and invoiced to, Licensee by an Affiliated Company of Licensee, the allowable charges will be based on actual costs without profits, will be no higher than the most favourable prices charged by the Affiliated Company to third parties for comparable services under similar terms and conditions elsewhere, will be included in any budget submitted to the Advisory Committee pursuant to Article 5 of the Agreement and will not exceed the charges billed to any Joint Operations in respect of such services pursuant to any Joint Operating Agreement relating to the Petroleum Operations carried out hereunder. The Licensee will, if requested by Government, specify the amount of such charges which represents an allocated proportion of the general material, management technical and other costs of the Affiliated Company, and the amount which is the direct cost of providing the services concerned. If necessary (but subject to the
provision of paragraph 1.5(a) of this Annex, certified evidence regarding the basis of prices charged may be obtained from the auditors of the Affiliated Company.

(f) Material

(i) General

So far as is practical and consistent with efficient and economical operation, only such material shall be purchased or furnished by Licensee for us in the Petroleum Operations as may be required for use in reasonably foreseeable future and the accumulation of surplus stocks will be avoided.

(ii) Warranty of Material

Licensee does not warrant material beyond the supplier’s or manufacturer’s guarantee and, in case of defective material or equipment, any adjustment received by Licensee from the suppliers/manufacturers or their agents will be credited to the accounts under the Agreement.

(iii) Value of Material Charged to the Accounts Under the Agreement

(a) Except as otherwise provided in subparagraph (b) below, material purchased by Licensee for use in the Petroleum Operations shall be valued to include the invoice price less trade and cash discounts (if any), purchased and procurement fees plus freight and forwarding charges between point of supply and point of shipment, loading and unloading fees, dock charges, forwarding and documentation fees, packing costs, freight to port of destination, insurance, taxes, customs duties, consular fees, other items chargeable against imported material and where practicable handling and transportation expenses from point of importation to warehouse or operating site, and its costs should not exceed those currently prevailing in normal arms length transactions on the open market.

(b) Materials purchased from Affiliated Companies of Licensee shall be charged at prices not higher than the following:

(1) New Material (Condition “A”) shall be valued at the current international price which should not exceed the price prevailing in normal arms length transactions on the open market.

(2) Used Material (Conditions “B” and “C”)

(i) Material which is in sound and serviceable condition and is suitable for reuse for its original function without reconditioning shall be classified as Condition “B” and priced at seventy-five percent
(75%) of the current price of new material defined in subparagraph (1) above.

(ii) Material which cannot be classified as Condition “B” but which after repair and reconditioning will be further serviceable for original function as good secondhand material (Condition “B”) shall be classified as Condition “C” and priced at fifty percent (50%) of the current price of new material as defined in subparagraph (1) above.

(iii) Material which cannot be classified as Condition “B” or condition “C” shall be priced at a value commensurate with its use.

(iv) Material involving erection costs shall be charged at the applicable condition percentage of the current knocked down price of new material as defined in subparagraph (1) above.

(v) When the use of material is temporary and its service to the Petroleum Operations does not justify the reduction in price as provided for in subparagraph (2)(ii) hereof, such material shall be priced on a basis that will result in a net charge to the accounts under the Agreement consistent with the value of the service rendered.

(vi) Stocks and consumables costs shall be charged to the accounts pursuant to the “Average Cost” method.

(g) Rentals, taxes, duties, and Other Assessments

All rentals, levies, charges, fees, compensation or other charges in respect of rights of way, contributions and any other assessment and charges levied by the Government or any Government or foreign public authority in connection with the Petroleum Operations, and paid directly or indirectly by Licensee, other than Income Tax imposed on Licensee (except as provided in Article 14 of the Agreement) and the Government Production Share attributable pursuant to Article 13 of the Agreement.

(h) Insurance and Losses

Insurance premia and costs incurred for insurance, provided that if such insurance is wholly or partly placed with an Affiliated Company of Licensee, such premia and costs shall be recoverable only to the extent generally charged by competitive insurance companies other than an Affiliated Company of Licensee. Costs and losses incurred as a consequence of events which are, and in so far as, not made
good by insurance obtained under the Agreement are recoverable under the Agreement unless such costs have resulted solely from an act of Gross Negligence or Willful Misconduct of Licensee.

(i) Legal Expense

All costs and expenses of litigation and legal or related services necessary or expedient for the producing, perfecting, retention and protection of the Contract Area, and in defending or prosecuting lawsuits involving the Area or any third party claim arising out of activities under the Agreement, or sums paid in respect of legal services necessary or expedient for the protection of the interest of Licensee are recoverable. Where legal services are rendered in such matters by salaried or regularly retained lawyers of Licensee or an Affiliated Company of Licensee, such compensation will be included instead under subparagraph 4.1(b) or 4.1(d) above, as applicable.

(j) Training Costs

Except where otherwise provided herein, all costs and expenses incurred by Licensee in training of its Ugandan employees engaged in the Petroleum Operations and such other training as required under Article 18 of the Agreement.

(k) General and Administrative Expenses

The costs described in subparagraph 2.5(a) and the charge described in subsection 2.5(b).

(l) Interest and other financial charges incurred on loans raised by Licensee to finance Development Operations provided that such interest rates and charges do not exceed prevailing commercial rates and only to the extent that such interest and financial charges relate to debt raised by Licensee to finance such operations (including loans from both Affiliates and Non-Affiliates) do not exceed fifty per cent (50%) of the total financing requirement. All loans from Affiliated Companies shall be subject to review and approval of the Government, which approval shall be given provided that the terms of such loans are comparable to those which could be obtained on an arms length basis from a non-Affiliated Company lender.

(m) Commissions paid to intermediaries by Licensee unless such commissions exceed the levels usually paid in the international oil industry under similar conditions in which event the approval of the Government shall be required, which approval shall not be unreasonably withheld.

(n) Expenditure on research into and development of new equipment, material and techniques for use in searching for development and producing Petroleum directly related to the conduct of Petroleum Operations carried out under this Agreement.
(o) Ecological and environmental charges: Costs for all measures taken to avoid waste and prevent damage or pollution in the conduct of the Petroleum Operations.

(p) Leasing expenses: Costs incurred in connection with the leasing of property and equipment provided that such costs do not exceed prevailing commercial rates and that any such leasing arrangements are concluded with parties which are not Affiliated Companies of Licensee.

(q) Communication charges: Costs of acquiring, leasing, operating and maintaining communication systems including, but not limited to, radio, telephone, telex and e-mail systems.
4.2 Costs not Recoverable under the Agreement

(a) Costs incurred before the Effective Date.

(b) Petroleum marketing or transportation tariff charges incurred beyond the Delivery Point.

(c) The costs associated with the provision of the Bank Guarantee pursuant to paragraph 4.6 of the Agreement and any payments made thereunder in respect of failure by Licensee to comply with its contractual obligations under the Agreement (and any other amounts spent on indemnities with regard to fulfilment of contractual obligations by Licensee).

(d) Legal and other costs of arbitration and the independent expert in respect of any dispute referred for determination pursuant to Article 26 of the Agreement.

(e) Royalty paid pursuant to Article 10.

(f) Income Tax imposed in accordance with the laws of Uganda.

(g) The Government Production Share determined pursuant to Article 13 of the Agreement.

(h) Fines and penalties imposed by Courts of Law of the Republic of Uganda.

(i) Costs incurred as a result of Gross Negligence or Willful Misconduct of Licensee; and

(j) Interest incurred on loans raised by Licensee to finance Exploration Operations.

4.3 Other Costs and Expenses

Other costs and expenses not covered or dealt with in the provisions of this Section and which are incurred by Licensee for the necessary and proper conduct of Petroleum Operations are recoverable after written approval of Government.

4.4 Credits Under the Agreement

The net proceeds of the following transactions will be credited to the accounts under the Agreement:

(a) The net proceeds of any insurance or claim in connection with the Petroleum Operations or any assets charged to the accounts under the Agreement when such operations or assets were insured and the premia charged to the accounts under the Agreement.
(b) Revenue received from outside for the use of property or assets charged to the accounts under the Agreement.

(c) Any adjustment received by Licensee from the suppliers/manufacturers or their agents in connection with a defective material the cost of which was previously charged by Licensee to the accounts under the Agreement.

(d) Rebates, refunds or other credits received by Licensee which apply to any charge which has been made to the accounts under the Agreement, but excluding any awards granted to Licensee under the arbitration or independent expert proceedings referred to in Subsection 4.2(d) above.

(e) The actual net proceeds of sale realised from the disposal on arms length basis of inventory materials originally charged to the accounts under the Agreement and subsequently exported from the Republic of Uganda without being used in the Petroleum Operations. In the event that such inventory materials are exported but not sold by Licensee, or, if sold, are disposed of other than on an arms length basis, such materials will be valued as used material pursuant to paragraph 4.1(f)(iii) of this Annex and the value so determined shall be credited to the Accounts.

4.5 Duplication of Charges and Credits

Notwithstanding any provisions to the contrary in this Accounting Financial Procedure, it is the intention that there shall be no duplication of charges or credits in the accounts under the Agreement.
Licensee shall maintain detailed records of property and assets in use for the Petroleum Operations in accordance with the normal practice in exploration and production activities in the international petroleum industry. At reasonable intervals but at least once a year with respect to movable assets and once every five (5) years with respect to immovable assets, inventories of the property under the Agreement shall be taken by Licensee. Licensee shall give Government at least thirty (30) days written notice of its intention to take such inventory and Government shall have the right to be represented when such inventory is taken. Licensee will clearly state the principles upon which valuation of the inventory has been based. When an assignment of rights under the Agreement takes place, a special inventory may be taken by Licensee at the request of the Assignee provided that the costs of such inventory are borne by the Assignee and not charged to Contract Expenses hereunder.
SECTION 6

Revision of Accounting and Financial Procedures and conflicts

6.1 The provisions of this Accounting and Financial Procedure may be amended by Agreement between Licensee and the Government. The amendments shall be made in writing and shall state the date upon which the amendments shall become effective.

6.2 In the event of any conflict between the provisions of this Accounting and Financial Procedure and the Agreement the provisions of the Agreement shall prevail.
